

2016 PRODUCT CATALOG

▼ Table of Contents

04 - 29		Valves
30 - 33		Supply Stops
34 - 39		Supply Lines & Appliance Connectors
40 - 45		Flex Connect Gas & Water Connectors
46 - 47		Gas Flare Fittings
48 - 51		Pre-Solder Copper Fittings
52 - 55		Copper Push Fit
56 - 61		Brass Push Fit
62 - 67		Plastic Push Fit
68 - 69		Electro Push Fit
70 - 75		Faucets
76 - 79		Strainers & Drains
80 - 83		Floor & Shower Drains
84 - 93		Specialty Fittings
94 - 101		Accessories & Repair
102 - 105		Plumbing Tools
106 - 107		Dielectric Unions
108 - 109		Channel Drains
110 - 115		Pipe Support & Hangers
116 - 139		Malleable Fittings
140 - 147		Red Brass Fittings
148 - 151		Structural Fittings
152 - 153		Structural Pipe

VALVES

The B&K Valves are precisely engineered for outstanding service, long life and reliable performance. These valves offer easy operation, superior flow and include a wide range of water/oil/gas (WOG) valves, gas valves and water valves constructed from forged brass, CPVC and PVC materials. Valves are arranged in series reflecting the valves' performance characteristics, connection types and handle style. B&K valves are created to meet UPC and ICC plumbing code requirements and are certified to meet NSF 61 with many available in lead-free compliant versions.

BALL VALVE • BRASS • 600 PSI • FULL PORT • PREMIUM • ITALIAN

SUPPLY STOPS

Manufactured to exacting quality, B&K Supply Stops are available in a variety of designs including straight, angle, quarter turn and traditional multi-turn. Our Supply Stops are offered with a host of different connections and handle styles to support various needs and piping systems including copper, PEX, CPVC or other. These Supply Stops are designed and manufactured to provide trusted performance and longevity. Constructed of chrome-plated brass, Supply Stops are offered in lead-free compliant models and certified to NSF 61.

SUPPLY LINES & APPLIANCE CONNECTORS

The B&K Supply Line & Appliance Connector offering has been greatly expanded to include more sizes and lengths than we previously had. Our offering still includes PVC, PEX and Braided Stainless Steel lines.

Some of our new items include the Universal Faucet & Toilet Kits. These kits are supply lines that have four universal fittings in a clamshell connected to the line. We also have included several new lengths of lines with different connection types.

GAS & WATER FLEX CONNECTORS

Our FlexConnect Appliance Connectors provide a safe and easy method to install household appliances such as gas ranges, water heaters, furnaces and more. The durable, stainless-steel construction supports high-flow rates, wide temperature ranges and is resistant to corrosive water and environmental conditions. In addition, each connector is 100% leak tested to ensure the highest quality. These connectors include a full range of yellow epoxy-coated and stainless steel gas connectors as well as stainless steel water connectors.

PRE-SOLDER COPPER FITTINGS

B&K's Pre-Soldered Copper Fittings are the quickest and most economical method for the plumbing contractor or home owner to sweat copper fittings.

Pre-soldered means no need to buy solder. This helps lower the total cost per connection.

COPPER PUSH FIT

The Copper Push Fit fittings provide for simple installations and long-lasting reliability. Compatible with Copper, PEX and CPVC piping, these fittings are certified to NSF 61, IAPMO listed for use in both potable-water and select hydronic-heating applications, and also meet UPC and ICC plumbing code requirements. Their instant push-fit connections, compact body designs and wide array of fitting types and materials make Copper Push Fit the convenient solution to your joining needs.

PLASTIC PUSH FIT

The Plastic Push Fit category is unique in that you secure your connection by using the twist-lock function. These fittings require no tools or locking clips for installation and they install in seconds. These fittings can be used with any tube from metallic to soft vinyl - including copper, PEX & CPVC.

ELECTRO PUSHFIT

Electro Push Fit fittings are similar to the other push fittings except these are designed to work for electrical needs. These fittings work ideally with electrical conduit. These fittings have removable back panels for any electrician to find the wiring needed and get right to work.

DIELECTRIC UNIONS

Our Dielectric Unions are the choice to prevent galvanic corrosion in commercial and residential piping systems. Installed between pipes made of different metals, these quality fittings protect your systems by utilizing an insulating gasket insert to eliminate the electrical current development that could lead to piping deterioration. Constructed of a union nut, an insulating gasket and two tail pieces, our Dielectric Unions are available with various connections of galvanized steel or lead-free compliant brass.

CHANNEL DRAINS

B&K Channel Drains provide stylish, efficient, and affordable floor drainage options to meet the increasing market demand. Channel Drain systems eliminate the traditional center drain which requires pitching the floor in four directions. This system allows the floor to be pitched in one direction reducing limitations on tile size or slab material.

PIPE SUPPORT & HANGERS

B&K Pipe Support & Hangers products ensures a proper and secure installation for most piping systems. Designed to supply a variety of functions, our Pipe Support products will work for pipe supply and drain waste & vent (DWV) systems. A range of copper plated nails and accessories allow for corrosion resistance and a reliable installation. Stud guards and plates provide a lasting safeguard for piping and electrical wiring systems that pass through a wall or ceiling. Our Pipe Support products are manufactured in galvanized malleable iron, copper plated steel, ABS plastic, steel, and vinyl coated steel.

STRUCTURAL FITTINGS

New fittings and Schedule 30 plain end pipe that should be used for a number of DIY projects such as racking, tables, railings, display fixtures along with countless others. A full assortment of fittings will be available and can be used with our NON-Threaded pipe.

These fittings are great for home, business and industrial projects! These fittings are perfect for the craft person who likes to move or the business owner looking to protect their employees. There is no limit on what can be made with these fittings and pipe.

Not for plumbing application or for scaffolding uses!

STRUCTURAL PIPE

The Structural Pipe is made to work with our Structural Fittings. Both diameter pipes come in four lengths of 10", 24", 36" and 72" and can be cut down to fit whatever project you need.

These pipes do not need threading to work with Structural Fittings nor are they intended for plumbing or scaffolding uses.
