reasonable period of time. Some dogs, for instance, may be fed free choice if they are very active. Provide plenty of fresh water. Any dogs prone to digestive disorders (bloat, pancreatitis, ulcers) should be given food in multiple meals.

NOTE: Blue Seal® Krunchies® IS NOT FOR puppies, pregnant, lactating or working dogs. We recommend our **Blue Seal® Natural 26™**, or **EnTrust**.

Introducing A New Dog Food

To avoid dietary upset when introducing your pet to a new food, switch to the new food over the course of a week by gradually decreasing the old food and increasing the new.

Provide plenty of fresh water at all times.

The suggested feeding program is intended solely as a guide. The variables of management, environment and breed may dictate changes in the animal's requirements.
