CLUB HAMMER, 4 LB

- Ideal for single-handed use when doing precision demolition work (demolition face) or when driving masonry nails, stakes or chisels (driving face)
- Wedged demolition face concentrates force for up to 5X more destructive power than traditional designs and directs debris to the sides, not back at you
- Extra-large diameter driving face improves strike accuracy
- Absorbs strike shock and vibration to reduce the punishment your body takes, transferring 2X less shock and vibration than wood handles
- Insulation sleeve captures initial strike shock before it can reach your hand
- Dual-layer handle features a specially formulated combination of insulating materials to dampen lingering vibration
- Handle flare keeps the tool firmly in hand when swinging
- Softgrip handle features a sculpted profile to fit the natural shape of your hand
- Strategic handle texturing features large dimples where fingers rest for maximum grip and small dimples where the palm rests to help prevent blisters

- Self-lubricating, maintenance-free bearing drive
- Fully hardened, precision-ground steel blade stays sharp, even through heavy use
- Low-friction coating helps the blade glide through wood, prevents the blade from gumming up with sap and debris and helps the blade resist rust
- Steel construction provides excellent durability
- Softgrip touchpoints enhance comfort and control
- Easy-open lock protects the blade during transport and storage
- Anvil blade style
- Maximum cutting capacity: 5/8" dia.

PRUNER PRO

- Ideal for cutting stems and light branches
- Blade tension can be adjusted to your hand strength and the materials you're cutting
- Angled cutting head reduces wrist fatigue and makes it easy to prune at awkward angles
- Fully hardened, precision-ground steel blade stays sharp, even through heavy use
- Low-friction coating helps the blade resist rust and prevents the blade from gumming up with sap and debris, making cutting even easier
- Built-in sap groove provides smooth operation
- Convenient hanging hole allows for easy storage
- Ideal for cutting stems and light branches, up to 1" diameter

SLEDGE HAMMER, 8 LB

- Ideal for demolition work like shattering concrete (demolition face) or driving stakes and wedges (driving face)
- Wedged demolition face concentrates force for up to 5X more destructive power than traditional designs and directs debris to the sides, not back at you
- Extra-large diameter driving face improves strike accuracy
- Absorbs strike shock and vibration to reduce the punishment your body takes, transferring 2X less shock and vibration than wood handles
- Insulation sleeve captures initial strike shock before it can reach your hand
- Dual-layer handle features a specially formulated combination of insulating materials to dampen lingering vibration
- Inseparable riveted head will not slide down or snap off, even when swinging with maximum force
- Softgrip handle features a sculpted profile to fit the natural shape of your hand
- Forged, heat-treated steel is finished with a rust-resistant coating

X7 SOFTGRIP HATCHET

- Ideal for chopping kindling and small- to medium-sized logs - chops deeper with each swing to get more done faster
- Perfected balance and power-to-weight ratio increases swing speed to multiply power, much like an aluminum baseball bat
- Proprietary blade-grinding technique provides a sharper edge for better contact and cleaner cuts
- Hardened forged steel blade stays sharp longer than traditional axes - included sheath helps protect blade and the user
- Low-friction blade coating powers through wood and prevents head from getting stuck
- Inseparable insert-molded head will not loosen and prevents overstrike breakage
- Shock-absorbing FiberComp handle is lightweight yet stronger than steel to prevent overstrike damage
- Textured non-slip grip reduces hand strain and improves control
- Designed in Billnäs, Finland, building on more than three-and-a-half centuries of the world's best forged tools
