It All Started With a Toaster...

Sixty years ago Norm Coghlan founded Coghlan's Ltd. with the Camp Stove Toaster, establishing the foundation for what would become the largest single brand of camping accessories in the world. Prior to forming his own company, Norm Coghlan sold lanterns, camp stoves, and parts primarily to the hardware market in the United States and Canada.

In 1959, he bought a small service depot in downtown Winnipeg, Manitoba, Canada and operated it as a private company. At that time, the newly born Coghlan's Gas Appliances concentrated on the natural gas heating market that was growing in Winnipeg. Norm Coghlan also added camping equipment such as tents, sleeping bags and air mattresses. Many campers would come in to the store to get their camp stoves and lanterns serviced, and at the same time they would buy or rent other camping equipment.

Customers who came to the store wanted a way to make toast on their pump-up gasoline camp stove. Norm bought this product from a U.S. based company and they sold very readily in Coghlan's retail store. After inquiring with the toaster manufacturer, Norm found out that the toaster was being discontinued. He bought their entire inventory, rented a storage facility and this began Coghlan's distribution of camping accessories facilitating people's outdoor enjoyment across the globe.

As popularity grew for accessories over the years and the line expanded, we added a central warehouse in St. Paul, Minnesota, in addition to our Winnipeg, Manitoba warehouse - eventually shipping to over 40 countries worldwide.

We are the leading outdoor accessory supplier in the United States and Canada, and distribute over 500 accessories throughout the United States, Canada, South America, Europe, Africa, Asia and Australia.

To keep up with demand, Coghlan's teamed up with Opportunity Partners in the US and ImagineAbility in Canada, two companies that offer meaningful work for people with disabilities. Both Opportunity Partners and ImagineAbility assemble and package products and assist in fulfilling orders. Coghlan's was Opportunity Partners' first large client and is their oldest. This partnership has made it possible for people with disabilities to earn wages and prosper in the community for more than 50 years. It is this relationship that sets us apart, allowing us to give back to our community and provide meaningful work to those who take great pride in a job well done.

In 2015, Coghlan's acquired the McNett Corporation based out of Bellingham, Washington. McNett has been servicing the outdoors market for 35 years under the brands Gear Aid, M Essentials, McNett Tactical, Outgo and Aquamira. Now called Gear Aid, the product line features over 100 products to help you get more from your gear, improve your odds in the field and travel smarter. Together, Coghlan's and Gear Aid are expanding their already large product offering to lead the outdoor accessory market and beyond.

Today, tradition holds true. The Camp Stove Toaster is still in the product line - but now alongside over 500 accessories that make being in the outdoors more enjoyable. Coghlan's provides superior product and packaging, outstanding customer service, and maintains community relationships to make us the first choice in outdoor accessories.

Planogram For Success

Merchandising an outdoor accessory selection that maximizes sales and profits can be challenging. Coghlan's has 60 years of outdoor accessory experience to bring to your shelves with merchandising software to provide the best layout support. Coghlan's Planograms make it easy to organize your retail shelves so it is easy for customers to shop and increase revenues. Coghlan's will design the layout of your products so that your wall and shelves of accessories come alive and do the selling for you. Whether you're an existing customer or new to the outdoor accessories category let Coghlan's assist you in your Planogram needs. It's fast and is included as a value-added service.

Spaceman Merchandising Software visually organizes Coghlan's products to create an optimal layout for your specific fixtures.

You'll experience:

- Greater sales
- Stronger turns
- Higher profit per square foot
- Tighter inventory control and reduced out of stocks
- Faster replenishment
- Satisfied customers

Real Green

Coghlan's commitment to the outdoors does not just stop at great gadgets and accessories.

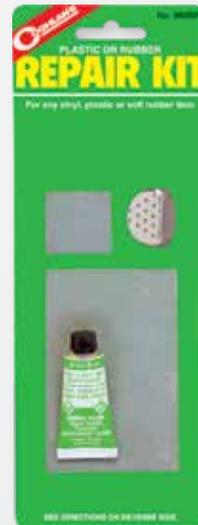

In 2008, we began to fulfill a mission to update our iconic "green and yellow" packaging. Our goal was to enhance our brand visuals by incorporating a look that was true to the outdoors while reducing packaging materials to lessen our impact on the environment.

The result was a package design that retained the brand identity so many consumers identify with and reduced the packaging materials to become more environmentally friendly.

Today, we are still rolling out new products with reduced packaging and we are also revising our existing products to reduce the footprint of the product and decrease the packaging materials required for each item.

Coghlan's is confident our new packaging will keep our products' impulse sales fresh and deliver a product that continues to position us as the leader in outdoor accessories. Our approach to green is real, it's in our history, in our packaging and it's ready for the outdoors.

- G** – Great outdoor accessories
- R** – Reusable and recyclable packaging
- E** – Ethically sourced products
- E** – Extensive product selection
- N** – New products every year

Coghlan's Helping Hands

Coghlan's Ltd. has enjoyed a long and valued relationship with five community organizations who provide meaningful work for people with a wide range of intellectual disabilities. Coghlan's is partnered with Opportunity Partners and AccessAbility in the USA, and ImagineAbility, Epic/Smile St. Malo and enVision of Manitoba, Canada.

Coghlan's has chosen to support these community organizations because it creates jobs for people within our communities. These organizations help with the assembly, quality control and packaging of Coghlan's products — in fact over 152 Coghlan's products are assembled and packaged by these special individuals with great pride and attitude.

Opportunity Partners, the largest of these organizations, helps people with disabilities prepare for work in the community and succeed in the workplace, either independently or as members of a work team.

Coghlan's will continue our over 50 year advocacy of these organizations, believing that it is important to give back to our communities. Thank you to all of our helping hands!
