## EcoSmart™ CONTAINERS

- Products made from 100% recycled plastic.
- Containers are solvent resistant.
- Perfect for cleaning brushes.
- Great for mixing paint colors.
- Made from low melt HDPE to ensure the best possible impact strength and resistance to cracking.
- 5 Gallon is our Space Efficient pail. A smart design in product development allows more units per pallet in shipping, resulting in improved freight efficiency and can minimize the need for additional storage space in warehousing.

## BACK TO EARTH®

Encore earth brown...the biodegradable "green".™

made from  
**Biodegradable Plastic**

- Engineered to accelerate microbial breakdown in aerobic and anaerobic landfill environments.
- Microbial biodegradation begins immediately when placed in landfill.
- Back To Earth® is derived from a proprietary organic additive which, when blended together with our resin, promotes biodegradation, when deposited in a landfill.
- Infinite shelf life in a warehouse environment, store shelves, trucks and containers.
- Virtually unaffected by light, heat (up to 160° F), water, humidity or mechanical stress.
- Back To Earth® family of biodegradable products are also recyclable.
- Extends the projected life of landfills by reducing volume.

## PAIL LINERS

- Our pail liner is a rugged, form-fitted plastic liner, which is thermoformed using durable polyethylene. Its seamless design of thick and evenly constructed walls and heavy contoured bottom help protect against leaks and spillage thus minimizing the risk of environmental contamination. Our pail liners can be used with liquids, pastes, or powders of varying density or viscosity. It is important to note that pail liners encourage easy and safe waste disposal, a "must" in today's industrial and manufacturing environments.
