1QW

Model 1QW Plastic Super-Start™ Waterer. Bright color attracts fowl. "See-through" jug monitors water level. Exclusive rim guard keeps birds from falling in or splashing others, reducing disease risk. Variable water level...set it low to start, high later. Low profile and wide base permit use in most brooders. Ideal size for starting large breeds or all the way with quail. Quick, easy lock-together design. Nests for easy storage. Trough is 1" (2.54 cm) deep.

Model 2 Plastic Slip-On Mason Jar Fount Base The strongest, most durable Mason Jar Fount Base made. Exclusive design allows fount to be inverted without spilling a drop. Stands up to 190° F (88° C) heat without warping. Rim around outer edge adds strength.

Model 65 Plastic Threaded Mason Jar Fount Base is popular for chicks and is also widely used as a cricket waterer. High impact styrene construction. Threads onto any one (1) quart small mouth mason jar.

Model 75 Plastic Threaded Drown-Proof Mason jar Fount Base is designed for quail, bantams, pheasant or any other tiny birds. The trough is narrow enough [1/2" (1.3 cm) wide, 1/2" (1.3 cm) deep] to prevent drownings. Same thread as Model No. 65.

Model O Galvanized Threaded Mason Jar Fount Base: Screws onto a one (1) quart small mouth mason jar. Die-stamped from rust-resisting steel. No seams to leak.

Model P1QT is a one (1) quart plastic jar that can be used with the following bases shown on this page - Models 2, 65, 75 and 0. Note: You can order our P1QT jar and our 75 base as Model DPF1.

Models CUPP and CUPK and CUPQ Plastic Water Cups have tabs for attachment to wire on brooders, cages, batteries and other crates. Use for small animals as well as poultry. Tabs can be cut to fit any cage. Boil and freeze resistant polyethylene construction. Ideal for poultry fanciers. Can be used as feed cups as well (see page 9).
