Sink Accessories

Provide care and protection for your sink, while bringing improved functionality and organization to the entire kitchen!

34 **UNIVERSAL**

37 **CUSTOM FIT**

READY, SET, SINK!

Here's what to consider when deciding which type of sink is best for you:

1

LOCATION, LOCATION, LOCATION. The first thing to consider when choosing a sink is where it's going and how it will be used. Kitchen? Work space? Bar? Laundry room? Next, double-check your cabinet size to ensure your new sink will fit. This will help you land on the size and design best suited to your needs.

2

OUT WITH THE OLD AND IN WITH THE NEW.

If you're replacing your current sink, find a sink with the same dimensions so it fits securely into the cut-out of your countertop. If it is being installed in a new countertop, know which type of installation methods are compatible with your countertop material. For example, granite and other solid surface countertops will allow for sinks to be installed on top of (topmount) or below (undermount) its surface. On the other hand, standard laminate countertops will allow for sinks to be installed only as topmounts.

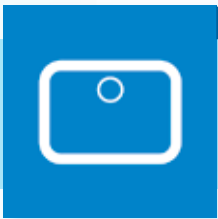

3

FACE IN THE HOLE! You should think about which fixtures make sense for your lifestyle to determine how many holes your sink will require. While stainless steel and Tectonite® sinks come with pre-drilled holes, granite sinks come with pre-drilled holes *and* "knock-outs." Think of knock-outs as small circular perforations. While completely invisible from the top, they can be easily identified from underneath and tapped out to create the hole count that is right for you. Sinks designed strictly for undermount installation don't have holes, so they will have to be drilled directly into your countertop or wall.

4

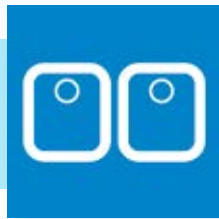

METAL OR CLASSIC ROCK? It's all about preference! Stainless steel and composite granite sinks are durable and stylish materials, so it all comes down to what you like best. Stainless steel is often a popular choice because it is hygienic, durable and coordinates well with other stainless steel appliances. If you're looking for a sink that will bring color into your kitchen while providing durability and unmatched germ-fighting properties, consider FrankeUSA composite granite sinks. Our exclusive Tectonite® sinks are another color solution that offer durability and style on a budget.

SINKS, DECODED.

SINGLE BOWL

Available in many sizes, single bowl sinks can be used in a variety of places.

DOUBLE BOWL

You select your style: Standard (two equal-sized bowls) or Offset (asymmetrical bowls).

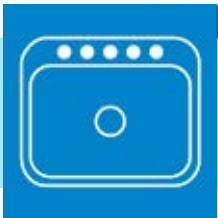

TRIPLE BOWL

If you often tackle several tasks at once, a sink with three bowls may be right for you. It's a great sidekick for any great multi-tasker.

FARMHOUSE

Often referred to as "apron-front," this sink style is designed with the front-facing portion exposed. Professional installation recommended.

HOLE COUNT

Have a game plan when it comes to fixtures (like faucets, soap dispensers, etc.) and make sure your sink's hole count matches up.

TOPMOUNT

Often called a "drop in" sink, these are easiest to install and are often the way to go for the Do-It-Yourself-er.

UNDERMOUNT

Installed to the underside of the countertop, undermount sinks provide a seamless look. Professional installation recommended.

DUAL MOUNT

If you spot a dual mount sink, one thing you won't have to worry about is whether it will work with your countertop. It can be installed as a topmount or undermount!

SINK KITS

Don't want to spend time coordinating a sink with fixtures? No problem! Sink kits come with the sink, faucet and strainer(s).

DRAIN LOCATION

Traditionally, sinks come with center drains. Rear-positioned drains provide more usable space within the sink and beneath it.

GAUGE

When it comes to sink gauge, less is more. Quality sinks start at 22 gauge and as the number gets lower, the steel gets increasingly thicker!

DEPTH

Consider what tasks you will ask your sink to perform. Do you need a deeper sink for large pots or will a standard depth do the trick?

XL CAPACITY

Not all sinks are created equal. Some styles are designed to maximize bowl capacity (L x W), so everything from cookie sheets to skillet handles fit inside.

DRAIN LINES

These are shallow creases pressed into the bowl(s) of some stainless sinks to help channel water toward the drain. (They also add a pro look to your kitchen!)

ADA COMPLIANT

These sinks comply with the Standards for Accessible Design outlined by the Americans with Disabilities Act.

Stainless Steel
Timeless, versatile and low maintenance.

There is a good reason stainless steel is the leading material when it comes to sinks. Not only does it coordinate well with all kitchen styles, its non-porous surface makes it a hygienic place to prep food, bathe the baby, wash your dishes and do every job in between. Constructed of 100% stainless steel, they're strong and resilient, too.

- Heat resistant up to 2,750°F
- Ultra-Quiet™ sound-deadening
- Non-porous
- Limited lifetime warranty

Finish Guide:

Mirror = Highly Reflective

Silk = Soft Glow

Satin = Matte

To Clean:

For best results, opt for a mild liquid soap and a wet cloth to gently clean your sink. Avoid using harsh chemicals and rough brushes/sponges. After cleaning, rinse thoroughly and towel dry.

If bringing color into your kitchen is important to you, FrankeUSA composite granite sinks provide a wide variety of color options, along with a wide variety of practical features. To sum it up, these sinks are tough. Scratch, stain and chip resistant, our composite granite sinks can take a beating and still look beautiful. In fact, if you drag a fork across the surface of any of these sinks, you'll notice that the line left behind is debris from the fork (which can be easily scrubbed off)! On top of their resilience, our granite sinks also provide defense against germs with Sanitized®.

What is Sanitized®? This is a Franke-exclusive protective barrier added during the manufacturing process which fights bacteria on the sink surface - even in between cleanings!

A woman with long brown hair in a ponytail, wearing a blue and white striped polo shirt, is shown in profile from the chest up. She is looking towards the right side of the frame. In the background, there is a white subway tile backsplash and a white kitchen sink. To the right of the sink, a bunch of fresh green basil is visible. The bottom of the image features a red geometric pattern.

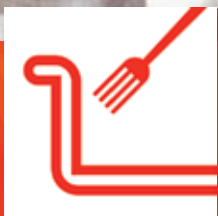

Composite Granite
Elegance meets durability.

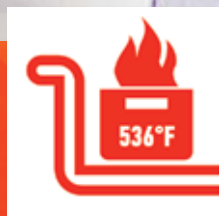

- Heat resistant up to 536°F
- Scratch, stain and chip resistant
- Sanitized® exclusive built-in protective barrier
- Dual mount
- Limited lifetime warranty

To Clean:

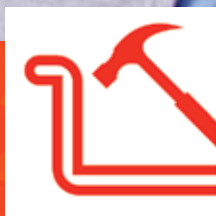

For best results, opt for a mild liquid soap and a wet cloth to gently clean your sink. Mild abrasives and a non-metallic sponge can be used for more aggressive cleaning. Rinse thoroughly.

FGS75

FGS754PK (4 pack)

Stainless Steel Grid – 13 1/2" x 19 1/2"

UNIVERSAL ACCESSORY

Fits most single bowl sinks w/ rear drains

FRM100

FRM1006PK (6 pack)

Stainless Steel Roll Mat – 17 1/4" x 14 1/4"

UNIVERSAL ACCESSORY

Fits across most standard sinks

FUH4

Stainless Steel Utensil Holder – 8 1/4" Tall x 4 1/4" Diameter

UNIVERSAL ACCESSORY

4010856 (Satin Nickel)

Stainless Steel Sink Strainer – 3 1/2" Diameter

UNIVERSAL ACCESSORY

Fits standard drain hole dimensions

FDBA1614

Stainless Steel Basket – 14 3/4" x 13 5/8"

Warranty

Sinks

FrankeUSA warrants all sinks to be free from manufacturing defects in material and workmanship, under the normal residential use for which it was intended, for the lifetime of the sink.

Accessories

FrankeUSA warrants all accessories to be free from manufacturing defects in material and workmanship, under the normal residential use for which it was intended, for a period of one (1) year from the date of purchase.

Faucets

FrankeUSA warrants all faucets included with FrankeUSA sinks kits to be free from manufacturing defects in material and workmanship, under the normal residential use for which they were intended, for the lifetime of the faucet.

Marine & Outdoor Installation

FrankeUSA sinks, accessories and faucets are not warranted for marine or outdoor installation.

For detailed information on our warranties, go to www.frankeusa.com or call 1-800-637-6485 to speak to a FrankeUSA Customer Service Team Member.

Customer Service

Thank you for viewing our product catalog. If you have questions about any of the listed items, please go to www.frankeusa.com or contact the FrankeUSA Customer Service Team.

Life is more moving when
you can stay in motion.

Daily tasks are less when
you don't have the stress.

And big things are possible
when the little things are done.

We make products that support these
essentials: to keep every day running
and make time more rewarding.
