

# TrimTop™

## STAINLESS STEEL COATED TRIM SCREW

### FEATURES

- Sharp type 17 piercing point
- #8 gauge
- Deep square drive
- 305 Stainless offers guaranteed corrosion resistance
- No predrilling needed with cellular PVC decking
- Approved in ACQ

**LENGTHS:** 1 5/8", 2", 2 1/2", 3"

### DESCRIPTION

TrimTop is a stainless steel coated trim screw engineered for use in PVC trim, PVC decking like AZEK® Deck, TimberTech® XLM, and Trex® Escapes, as well as hardwoods such as cedar, Ipe and mahogany. TrimTop screws are head-painted to match the decking or trim and are guaranteed not to rust for the life of the project.

### PACKAGING QUANTITIES

75 pc box, 350 pc box, 1,050 pc bucket

### INSTALLATION PROCEDURE

Install TrimTop using the square driver bit included in the packaging. Predrilling is typically not required for cellular PVC decking and trim, composite decking, and softwoods (cedar, PT).

It is recommended to predrill when fastening within 1 1/2" of end of any board. Predrilling and countersinking are required when fastening into hardwoods like Ipe and mahogany, or fastening into frozen deck or joist boards. Use a 1/8" drill bit for the pilot hole with countersink.

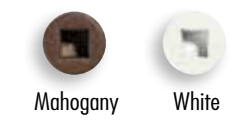

TrimTop SKU Selection Guide			
LENGTH	PACKAGING QTY	COVERAGE	SKU
1 5/8"	75 pc box	20 sq ft	FMTT158-75**
	350 pc box	100 sq ft	FMTT158-350**
