INSTALLATION TOOL

Until now, the PEX industry has been limited in its ability to grow because of the need for special expensive tooling required by the metal PEX connection clamps. With the PEXLOCK clamp, anyone can plumb with PEX using just a pair of common household pliers.

- All PEXLOCK part numbers come retail bagged fitting plus rings

COUPLINGS

BAGGED	DESCRIPTION	CASE
30771	PEXLOCK COUPLING 1"	10/100
30840	PEXLOCK COUPLING 1/2"	10/100

ECOPOLY PLS INSERT PEX FITTINGS

Flair-It Ecopoly polysulfone insert PEX fittings are constructed of durable Accudel Polysulfone (PSU). PSU is a cost effective alternative to brass. These fittings meet the requirements of ASTM F 2159, cNSFg and are compatible with copper crimp rings, and stainless steel rings. Ecopoly fittings are compatible with PEXLOCK clamps. Ecopoly PLS insert fittings are available in bulk and barcoded bags of ten as well as contractor packs.

Flair-It fittings are constructed of durable Polyoxymethylene (POM) and are compatible with PEX and PB. The patented design consists of a nut and flared insert and requires no tools. The fittings push against the ID and OD of the pipe, creating a strong long-term seal. Flair-It fittings are available in 3/8" - 3/4" and are stocked in bulk and barcoded versions. Must be ordered in lots of ten. Starter kits are also available. Valves are directional.

FLAIR-IT PEX & POLYBUTYLENE FITTINGS

WATER MANAGEMENT PANELS

Flair-It has created a series of Water Management Panels, that when installed in an RV or Boat distributes water to the proper fixture, and accomplishes a series of tasks that are integral to the operation of the RV or Boat. WMP's offer the consumer a simple device that performs servicing functions needed to maintain an RV or Boat.

The Water Management Panels will allow the RV/Boat owner to simply turn a series of valves, changing from pump to city fill, by-passing the water heater, winterizing the RV/Boat, and at the same time, managing the entire units water systems - all in a small lightweight panel.

These WMP's are manufactured with Flair-It fittings, white laminate, color coded valve handles and easy to read instruction labels. The small design allows the RV/Boat builder to incorporate the WMP into the vehicle's storage compartments, allowing for easy access and bringing value to the end user.

WMP-1

PART #	DESCRIPTION
41358	7" X 11" PANEL FOR PUMP / CITY PRESSURE, TANK FILL, WINTERIZE

Flair-It PRO manifolds are constructed of durable Udel Polysulfone (PLS). The modular manifold assembly is customizable and easy to use. Standard 1/2" male threaded outlets make the Flair-It PRO manifolds versatile. Flair It PRO manifolds meet IAPMO cNSFg standards. The manifolds are available in 8 - 36 ports.

ACCESS PANELS

BULK	DESCRIPTION
09100	MANIFOLD ACCESS PANEL 14" X 29" (MAX 24 PORTS)
09101	MANIFOLD ACCESS PANEL 14" X 38" (MAX 36 PORTS)
09102	MANIFOLD ACCESS PANEL 14" X 50" (MAX 50 PORTS)

SafePEX PRO™

PEX, PERT, & HIGH PRESSURE TUBING

PEX is a polymer pipe constructed of cross-linked polyethylene. It is an alternative to copper plumbing pipe because of the lower cost, faster installation and more flexible properties. There are three types of PEX available through Flair-It: PEX-a (SafePEX), PEX-b (BestPEX) and radiant heat PEX, which is PEXb with an oxygen barrier. All PEX distributed by Flair-It meets the requirements of ASTM F 876 and F 877. 3/8" - 1" ID PEX is available in straight sticks from 5' to 20' and coils from 100' to 1000' in bulk and barcoded.

Speedpush Push Connect Fittings & Valves are brass push-on fittings that connect copper, PEX, CPVC and stainless steel plumbing pipe; available in both low-lead and lead-free versions. Speedpush is removable and reusable with full, unrestricted flow. 1/4" - 2" Speedpush fittings are available in bulk and individually barcoded bags with inserts. Starter kits are also available. Speedpush fittings meet IAPMO, UPC, IPC, ASSE 1061, NSFg 61 and cUPC standards. PEX inserts must be used when connecting PEX pipe. Speedpush lead-free meets Annex-G, California AB-1953 and Vermont lead-free requirements.

BestPEX Lead Free brass insert fittings are constructed of durable high quality brass. They meet cNSF-14g ASTM F877, F1807 and CSA B137.5 standards and are compatible with both copper crimp rings and stainless steel clamps. 3/8" - 1" BestPEX brass insert fittings are sold in bulk, barcode and contractor packs (bulk fittings in a barcoded bag). Starter kits are available.

CRIMP RINGS & CLAMPS

-  COPPER PEX CRIMP RINGS
-  OETIKER PEX SSC
-  MURRAY PEX SSC
-  COPPER PB CRIMP RINGS
-  OETIKER PB SSC
-  PEXLOCK CLAMPS

Flair-It offers a variety of methods for crimping PEX fittings. Copper rings and stainless steel clamps (SSCs) are available for both PEX and polybutylene (PB). The copper rings are annealed copper and color coded for easy identification - black for PEX and copper for PB. Oetiker and Murray SSCs are constructed of stainless steel and meet ASTM F 1807 (metal fittings) and F 2098 and F 2159 (plastic fittings). Murray SSCs are ideal for cold weather installations and offer a thicker band for additional tension. Our copper rings and SSCs meet ASTM F 1807 (metal fittings) and F 2159 (plastic fittings). Our copper PB rings meet ASTM F 1380. We also offer the all new patented PEXLOCK clamps.
