

## ASSEMBLED AIR CIRCULATOR HEADS & MOUNTS

EIGHT FACTORY ASSEMBLED & TESTED FAN HEADS THAT CAN BE USED WITH ANY OF THE SIX TPI INDUSTRIAL MOUNTS.

### CIRCULATOR HEADS:

Meets OSHA Standards

<b>MOTOR</b>	2-speed, 120V, 1 Ph., ball bearing, totally enclosed, permanently lubricated permanent split capacitor.
<b>SWITCH</b>	Pull Chain
<b>CORD</b>	SJT type 3 conductor, 12' long
<b>GUARDS</b>	Double locking, chrome plated steel
<b>BLADE</b>	Steel hub/spider & aluminum paddles

Order Fan Heads & Mounts for complete assembly!

### CIRCULATOR MOUNTS:

PEDESTAL MOUNT

WALL MOUNT

POLE MOUNT

CEILING MOUNT

SUSPENSION MOUNT

I-BEAM MOUNT

OPTIONAL PEDESTAL WHEEL KIT WITH 10" RUBBER WHEELS

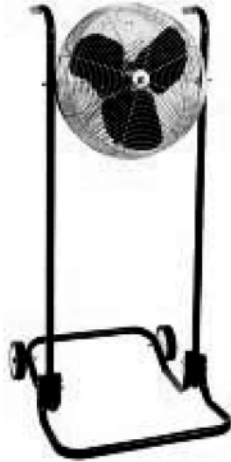

CIRCULATOR MOUNT	MODEL	UPC 686334	SHIPPING WEIGHT	UNIT COST
Pedestal	ACM-P	796187	34 lbs.	\$88.62
Wall Mount	ACM-W	796194	3 lbs.	\$33.23
I-Beam Mount	ACM-I	796200	9 lbs.	\$59.08
Ceiling Mount	ACM-C	796217	3 lbs.	\$33.23
Suspension Mount	ACM-S	796224	2 lbs.	\$29.54
Pole Mount	ACM-PM	868181	5 lbs	\$43.08
Optional Wheel Kit	ACM-WK	868136	2 lbs.	\$36.31

- Adjustable pedestal column (4 1/2' to 7') bolts to 27" steel dome base with five carriage bolts.
- I-beam mount & ceiling mount require 1 1/2" or longer pipe nipple for assembly. (not supplied)
- Oscillating motors can only be used with any mount when motor can be mounted in the upright position.

## INDUSTRIAL FLOOR FANS

Totally Enclosed Motor

HIGH STAND MODEL

FLOOR MODEL

<b>MOTOR</b>	3-speed, 1 Ph., 120V sleeve bearing permanently lubricated
<b>SWITCH</b>	Rotary
<b>CORD</b>	SJT type 3 conductor, 10' long
<b>HEAD TILT</b>	360°
<b>GUARDS</b>	Chrome plated

Note: Overall height of high stand is 53"

Meets OSHA Standards • 1 Year Limited Warranty

\*Variable speed capable.

### The Schaefer Versa-Kool® circulation fan has a patented design that's superior to other fans on the market.

- Fan guard spacing is wider, providing greater air circulation.
- The fan motor is maintenance-free and highly energy efficient.
- Noise levels are low...well below OSHA requirements.
- Fans can be ceiling mounted or wall mounted, thereby remaining out of the way of material-handling equipment and eliminating employee safety hazards.
- Improves comfort by enhancing the normal body cooling process.
- Increases production and safety levels.
- Improves work station air quality.
- Reduces equipment and building condensation problems.
- Provides an energy efficient design for low cost operation.

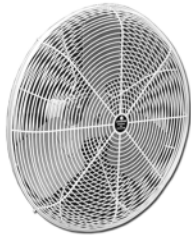

Model	Ceiling Mount	Wall Mount	Adaptable to Wall Oscillator	Adaptable to Floor Cart

#### Fan Features:

- Two-speed pull chain, totally enclosed, maintenance free, heavy duty ball bearing, permanent split capacitor, thermally protected motor.
- Durable urethane coated fan guard meets OSHA requirements.
- 10', 115 volt grounded cord included.

#### Pedestal Features:

- Two-piece pedestal adjusts from 3½' to 6'.
- Rugged 13 gauge steel with black powder coated finish.
- Sturdy base – 30" diameter.

#### Fan Cart Features:

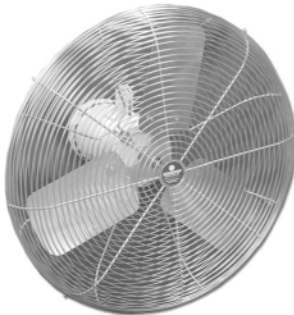

- Handy and powerful 24" and 30" mobile fan.
- Adjustable floor stand allows for air circulation in multiple positions. • 8" semi-pneumatic wheels.

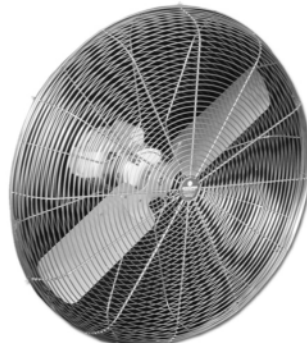

## Stainless Steel Washdown Duty Fans

Schaefer Ventilation steel fans are designed to withstand moist / wet environments along with high-pressure cleaning with concentrated caustic solutions without affecting performance or functionality. Choose from 24" or 30", all stainless, paint-free or washdown duty.

24CFO-WD

30CFO-WD

- 24CFO-WD: diameter 27" x 16" deep
- 30CFO-WD: diameter 33.5" x 17" deep

### 24" & 30" Stainless Steel Washdown Duty Fans

*This fan is ideally suited for comfort cooling in food and beverage processing facilities and other high humidity or washdown environments.*

It is constructed with electro-polished 304 stainless steel approved by the USDA and the NSF for Food Zones and the guards are OSHA spaced. The motor has USDA approved electrostatically applied epoxy finish. Three-phase models available.

#### Features:

**All Stainless:** These models have non-porous, electro-polished 304 stainless steel guards, stainless steel blades, and an all stainless steel motor.

**Paint-Free:** These models have non-porous, electro-polished stainless steel guards, stainless steel blades, and a stainless steel, paint-free motor constructed with anodized aluminum end bells.

**Washdown Duty:** These models have non-porous, electro-polished stainless steel guards, stainless steel blades, and a moisture resistant motor.

Model	Description
24CFO-WD	24" Circulation fan, stainless steel OSHA guards, stainless steel blade, washdown duty moisture resistant motor

Heavy Duty - Industrial

**36", 42" & 48" Mobile Box Fan**

- Fully assembled. • Two-speed.
- Galvanized housing is long lasting and corrosion resistant.
- Heavy-duty caster wheels for easy movement (two lockable).
- "Ultra Quiet" operation while maintaining a high CFM output.
- Cast iron pulleys to prevent warping. • Cogged V-belt to prevent slippage.
- Totally enclosed motor with automatic thermal protection.
- Industrial type sealed bearings, cast iron, can be regreased.
- Front and back guards meet OSHA requirements.
- On/Off switch, with UL approved nine foot cord with cord wrap.
- Heavy-duty handle for easier movement. • Six-wing galvanized blade.

## 52" Fiberglass Exhaust Fans

523CF1

**Features:**

- One-piece molded fiberglass housing.
- Rugged polyethylene cone.
- Heavy-duty, totally enclosed, maintenance free, and energy efficient motors.
- Galvanized and stainless blades offer better balance, less vibration, less drag, and more efficiency than cast blades but offer the same lifetime warranty!
- Gates Tri-Power® molded notch belts with special Vextra® construction. Automatic tensioner standard on all models.

Model	Description	Performance
523CF1	52" Belt drive exhaust fan with cone, 3-wing galvanized blade, 1 hp motor	26,960 cfm

Performance tested at .05 static pressure. Performances may vary.

## 36", 42" & 48" Fiberglass Exhaust Fans

The Schaefer fiberglass ventilation fan with revolutionary tapered design has no corners to block air or collect dirt and dust. Housing is constructed of molded fiberglass that carries a lifetime guarantee. One-time balancing of propellers ensures peak performance for greater efficiency.

- Special scallop-designed, static balanced, galvanized fan blades ensure quiet operation with high performance.
- Stainless steel blades available.
- Industrial-type, cast-iron greased bearings can be regreased.
- Motors are energy efficient, totally enclosed air-over with automatic thermal protection. Single phase or three phase available.
- Rugged fiberglass slant wall housing with lifetime warranty.
- Factory assembled and test run to ensure smooth operation.
- Automatic, self-adjusting belt-tightener.
- Heavy duty aluminum shutter.
- Epoxy coated front guard.

## Exhaust Fans & Shutters Fans

### 9", 12", 16", 20" & 24" Polyethylene Flush-Mount Exhaust Fans

- **Heavy-Duty Motors** - Totally enclosed, thermally protected, pre-lubricated ball bearings. Specifically designed for less energy consumption.
- **Fan Blades** - Energy efficient polypropylene construction. Rust and corrosion resistant. Unique design allows for efficient operation and perfect balance.
- **Fan Housing** - Heavy molded polyethylene construction. Won't rust or corrode – never needs painting. Easy-clean design. **Lifetime warranty on fan housing.**
- **Fan Guards** - All fans have a heavy gauge, welded wire, front and back guard which is PVC vinyl coated for corrosion resistance.
- **Shutters** - All-weather PVC shutters constructed of white poly materials and assembled with nylon bearings. Aero-dynamically efficient.

Model	Description	Motor Specs	Performance
PFM0900-1*	9" Polyethylene exhaust fan	1/6 hp, 115/230v, 3000 rpm, 1.9/1.0 amps	1091 cfm

## Portable Misting Fan

### VersaMist

Ideal Applications:

- Rental · Outdoor Retail · Fire Departments/Rescue Squads
- Pools, Patios and Decks · Construction and Job Sites
- Sporting Events · Tent Rentals · Camping/Resorts

Heat can be a major problem on many job sites, causing fatigue, lowering morale and decreasing productivity. Fans with misters are one of the best ways to minimize heat stress.

VersaMist® and Mighty Mister® each combine a Schaefer industrial quality fan with a misting system, resulting in a rugged and portable cooling unit designed for fast heat relief. VersaMist® cools a 180 square foot area for about 5 hours, and the Mighty Mister™ approximately eight hours.

Reduces air temperature up to 20°F

### Mighty Mister

Model	Description	Amps	Volts	Watts	HP	PSI	Weight
<b>VersaMist®</b>							
PVM1200	Complete	60	1.6	115	-	1/10	27 lbs.

MM120-12V	Complete	60	7.2	12	45	-	34 lbs.

\*220 Volt VersaMist® or Mighty Mister® models available by special order.

## VersaFog Portable Fog Fan

Reduces air temperature up to 35°F

The VersaFog® is our most powerful cooling fan. It features a high-pressure cooling fog and an industrial-quality 36" oscillating fan that distributes cool air up to 65 feet.

**Features:**

- Auto drain valve reduces nozzle clogging.
- 12 nozzle ring with brass & stainless steel nozzles and fixtures.
- High quality pump designed to withstand many years of use.
- Fan oscillates for wide coverage range.
- High quality pump with low pressure shut-off protection.
- Auto drain valve reduces nozzle clogging.
- Fan oscillates at 90 degree arc and tilts up and down.
- Model available in black.

Model	Size	CFM	RPM	HP	Volts	Amps	Weight
VS36VKOFOG	36"	11,000	840	1/2	115/230	6.2 / 3.1	265 lbs.

## Portable Misting Fans & Kits

### 24", 30" & 36" Pedestal Fan with High Pressure Mist Kit and Pump

Portable, high-velocity, two-speed, oscillating fans with a three or four nozzle, stainless-steel, powder-coated misting ring. Integral high-pressure (1,000 PSI), positive-displacement pump with primary filtration. Two-speed.

Model	Description	HP	Volts	CFM
24PFRM	24" pedestal fan w/mist kit	1/4	115	5100 / 3920
30PFRM	30" pedestal fan w/mist kit	1/2	115	9350 / 8125
36PFRM	36" pedestal fan w/mist kit	1/2	115	12,477 / 9080
24PFRM-OSC	24" osc. pedestal fan w/mist kit	1/4	115	5200 / 4440
30PFRM-OSC	30" osc. pedestal fan w/mist kit	1/2	115	9800 / 9300
36PFRM-OSC	36" osc. pedestal fan w/mist kit	1/2	115	12,173 / 9080

### 24" & 30" Fan Cart with High Pressure Mist Kit and Pump

Ideal for use where air circulation and mist cooling is required from ground level. Adjustable floor stand allows for air circulation in multiple positions. Two-speed.

Model	Size	HP	Volts	Amps	CFM
24FCM	24" fan cart w/kit	1/4	115	2.9 / 1.6	5100 / 3920
30FCM	30" fan cart w/kit	1/2	115	4.7 / 3.5	9350 / 8125

### Low Pressure Misting Kits 20", 24", 30" & 36" Fans

Our low pressure misting kits provide an economical alternative for evaporative cooling, while still supplying up to the equivalent of two cooling tons\* per fan. The low pressure system can operate with supply pressures as low as 40 PSI\*\*.

\*The temperature and relative humidity of the area being cooled determine the maximum cooling capacity.

\*\*The available supply pressure determines the number of fans that can be supplied from a single water source.

Model	Description
MKLP36	Low Pressure Multiple Fan Misting Kit (30" & 36" fans) (Six mist heads included)
MKLP2024	Low Pressure Multiple Fan Misting Kit (20" & 24" fans) (Four mist heads included)
MK-FK	Spin-Down™ Filter Kit
MK-BH	3/4" Low Pressure Hose - (Order by the foot)

### Mist Ring Kits

- All brass fittings. • Reinforced braided nylon hose with PVC jacket.
- Brass nozzles with stainless steel inserts. (Can be cleaned easily.)
- Spray pattern engineered for optimum performance.
- Mist ring attaches easily to fan.

- MK-1200** Fits 12" fans
- MK-100B** Fits 20" & 24" fans
- MK-200B** Fits 30" & 36" fans

**The Best Portable Evaporative Cooler Available!**

**WayCool® reduces air temperature up to 20°F**

The unique WayCool® design dramatically outperforms all other portable evaporative coolers, with greater cool air output, smaller size, lower cost and good looks.

WayCool® shown with optional manual fill.

**WayCool® and Oscillating WayCool® Specifications**

220 volt WayCool® available by special order.

\* Weights do not include water or shipping skid. \*\*Manual fill. \*\*\*\* Designated Hazardous Location model. -OSC oscillates (patented).

**Features:**

- Two-speed centrifugal blower for quiet operation that blows cool air up to 100 feet.
- Uniquely designed cooling pads on all four sides for maximum efficiency.
- High impact ABS plastic with UV protection. • Minimal maintenance required.
- Auto hose fill or self-contained tank for stand-alone operation.

**Options:** Manual fill and water level gauge, pneumatic wheels and water conditioner and cleaners available.

**Versa-Filler 50 Gallon Water Supply Reservoir**

Easy garden hose hook-up to either the Pro-Kool or WayCool models.

- Portable - Compact - Durable
- Easy to read water level
- Rugged impact resistant design
- Easy to clean
- Weight: 42 lbs.

Schaefer's Pro-Kool® portable evaporative cooler boasts a powerful 1/3 or 1 hp fan which delivers 20% more cool air while using less energy!

- Attractive grey slate finish
- More powerful
- More energy efficient
- More cool air
- Less noise
- Less floor space

## Gas & Electric Radiant Heaters

### Zubri Portable Heaters

One of the best solutions available to restaurants, rental companies, event planners and homeowners. There isn't anything on the market as lightweight and durable as the portable Zubri heaters! Available in several configurations including models at 24,000 and 40,000 BTUs. Each of these have an optional carry case and reflector bag for easy transportation.

*Features*

- No tools necessary to assemble
- Available in charcoal gray
- Adjustable heat control
- Hard-shell carrying case
- Carrying bag for reflector

*Benefits*

- Lightweight
- Portable
- Quiet operation
- Economical to operate

#### 40,000 BTU

- Z1-12CK
- 40,000 BTU
- 7'3" high
- Weighs 49 lbs.
- Heats approximately 18'-20' wide area
- Utilizes 20 lb. propane tank (not included)
- Outdoor use only

#### 24,000 BTU

- Z1-8CK
- 24,000 BTU
- 7'2" high
- Weighs 41 lbs.
- Heats approximately 16'-18' wide area
- Utilizes 20 lb. propane tank (not included)
- Outdoor use only
- Easily converts to a table top. Model featured below.

### Zubri Classic Portable Heater

The Zubri Classic propane heater, offers a comfortable 45,000 BTUs of heat. It's stainless steel body makes it robust, rust-proof and attractive.

*Features*

- Stainless-steel finish
- Built-in Piezo spark igniter
- Adjustable heat control
- Fixture kit for permanent installation

*Benefits*

- Attractive
- Durable
- Quiet operation
- Economical to operate

#### 45,000 BTU

- Z1-14SS
- 45,000 BTU
- 7'4" high
- Weighs 48 lbs.
- Heats approximately 20' wide area
- Utilizes 20 lb. propane tank (not included)
- Outdoor use only

*The 24,000 and 40,000 BTU Zubri Heaters have an optional carrying case and reflector bag for easy transportation.*

## Innovative Electric & Gas Radiant Heaters

The Schaefer line of VersaHeat® radiant heaters is different from other heaters on the market in one very fundamental way - the IRLens™. The IRLens™ is an exclusive, unique and patented "lens" that is fitted on

VersaHeat® heaters. The revolutionary design of the IRLens™ captures the majority of the infrared wasted by ALL other heaters on the market and FOCUSES it on a targeted area or zone...thus spot heating it! As a result, the VersaHeat® can:

- Allow you to heat target areas.
- Heat objects - not buildings.
- Achieve a far greater temperature increase in target area than conventional infrared heaters.
- Yield dramatic energy savings by heating only the target area, results in a reduction of current heating cost up to 90%.

### Low & High Intensity Gas Heaters

Cut heating costs up to 75% or more with Schaefer Gas Infra-Red Heaters.

Reliable, energy saving, comfort heating with all the advantages.

Model	Description
<b>High Intensity (Ceramic)</b>	
K-60DSAN	60,000 BTUH, Direct spark ignition, natural gas heater
K-100DSAN	100,000 BTUH, Direct spark ignition, natural gas heater
K-150DSAN	150,000 BTUH, Direct spark ignition, natural gas heater
<b>Low Intensity (Tube)</b>	
QGS-75-20MBN	75,000 BTUH, Natural gas, 20' length, straight system
QGS-100-30BN	100,000 BTUH, Natural gas, 30' length, straight system
QGS-150-40CN	150,000 BTUH, Natural gas, 40' length, straight system

For a complete list of Schaefer heating products, refer to the complete price list.

## Innovative Electric Radiant Heaters

### Heatstrip Electric Heater

The **HEATSTRIP** is a high intensity, over head mounted, electric radiant heater which provides an effective and efficient solution for outdoor and indoor heating applications.

The HEATSTRIP design incorporates an exclusive, extruded black anodised aluminium profile with a high surface area to radiate heat efficiently and effectively at minimal operating costs.

The special design of this radiation surface ensures rapid, even heat dispersion to provide an ideal comfort heat environment.

**In fact, the high performance of the HEATSTRIP means that they can be mounted from 7 feet to over 20 feet from the floor.**

Also incorporating a water protection rating of IPX-5, the HEATSTRIP has been specifically engineered for use within undercover outdoor and indoor open areas.

Ideal outdoor undercover applications for the HEATSTRIP would include outdoor smoking or alfresco dining areas, outdoor patios and balconies, or sidewalk cafes.

Ideal indoor applications for the HEATSTRIP would include spot heating in factories, showrooms, animal enclosures and other indoor open areas.

### Dry Heat Construction Heaters

Single phase

102,000 BTU electric heater

*The Dry Heat Construction Heater can be used in any commercial, industrial or residential setting needing temporary heat.*

**Model: DH-30**

#### Features/Benefits:

- 102,000 BTU (Three 34,000 BTU stages)
- 208/230 volts
- 2000 cfm
- All electric - single phase
- Portable
- Low maintenance
- Clean and safe heat - no flames, fumes, or venting
- Electric heat does not add moisture
- Speeds up drying time by providing "dry heat"
- Completely self contained unit
- Thermostat with a 50° - 90°F adjustable range

#### Specifications:

- 3 - 60 amp breaker connections required - wired directly to electrical panel
- Air handler is UL and ULC rated
- 3-phase units available upon request
- Dimensions: 22.5" deep x 25" wide x 52" tall
- 150 lb. unit weight

#### Construction:

- Factory steel casing and powder coated finish
- Heavy duty angle iron frame and filter frame
- 2 - 5" tires and handle allows for easier movement
- Adjustable steel register
- Three 60 amp circuit breakers
- Three 30' portable 6/3SJ electrical cords

## Mueller/B&K

**Types L and K Copper Tubing** - 99% pure copper. Annealed for ready bending. I.D. measurements apply to types L and K tubing.

Type L: Heavy wall for general plumbing and heating purposes.

Sizes stocked in warehouse:

1/4" I.D., 60' coil

3/8" I.D., 60' coil

1/2" I.D., 60' coil

3/4" I.D., 60' coil

Type K: Extra heavy wall for underground service and general plumbing and heating purposes.

Sizes stocked in warehouse:

3/8" I.D., 60' coil

1/2" I.D., 60' coil

3/4" I.D., 60' or 100' coil

## Selkirk LLC

**Dripless Smoke Pipe Adapter** - Used to connect either model DS smoke pipe or single wall stove pipe to SSII type HT insulated chimney pipe. The part is designed to slip inside single wall stove pipe to contain any creosote dripping down the chimney on the inside of the pipe system. There are 2 dripless smoke adapters:

(1) (DSA)-without coupler.

For use in retrofit installations, this part can be installed from below with a finish support package and secured with screws.

(2) (DSAC)-with coupler.

For use in new installations, this part can be installed by twist-locking the coupler on the DSAC into the first section of Model SSII type HT chimney pipe.

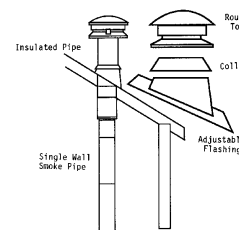

Product No.	Mfg. No.	Description	Order Mult.	Weight	Unit Cost

## Selkirk LLC

**3-Piece Chimney Kit** - Contains 1 round top, 1 storm collar, and 1 roof flashing (either 6T-AF6 or 8T-AF6). For use with SSII Type HT chimneys.

Product No.	Mfg. No.	Description	Order Mult.	Weight	Unit Cost
405074-D	6T-RTK	6"	0/0/1	7.000	114.99 EA
405118-D	8T-RTK	8"	0/0/1	10.000	169.99 EA

**NOTE 1:** SSII type HT chimney pipe and accessories for venting residential heating appliances burning natural and LP gas, No. 2 oil, and wood. It has been specifically designed for today's modern, high-efficiency *airtight* wood stoves, or as they are termed; solid fuel wood burning fireplaces. It is also suitable for wood burning heaters and for combination fuel central heating furnaces.

## Purolator Air Filtration

**Puro Pleat® Ultra Air Filter** - This high efficiency, electrostatic home air filter is a patented dual action design. The blue layer removes larger particles, pollen, pet dander, and lint. The white electrostatic layer traps over 95% of airborne contaminants, dust mites, plant spores, viruses, bacteria, and smoke. This filter helps to make a healthy home by giving allergy relief, dust control, and a more efficient furnace. Recommended to change filter at least every 3 months.

## Purolator Air Filtration

**Basic Furnace Filter With Wrap Insert** - This filter combines high performance filtration capability with a unique Monobond frame construction. The result is an economical, high capacity, medium to high efficiency air filter designed for applications where a 1" disposable panel filter may be used. Benefits include it being 4 times more efficient than fiberglass filters and the pleat design increases air flow and dust holding capacity for small particles up to 5 microns or larger. Lasts up to 90 days. Individually wrapped.

## FURNACE FILTER

### Purolator Air Filtration

**Purolator 2000 Filter** - Designed exclusively for home use where airborne irritants measure in the 5 to 100 micron size. This includes grease, soot, dust, pollen, pet dander, and mold. The pleat configuration is enclosed in a 2-piece, heavy-duty board frame. Your hands never have to touch the contaminated media during the filter changeout process. UL Class 2 approved and listed.

Product No.	Mfg. No.	Description	Order Mult.	Weight	Unit Cost
455377-D	82655.052025	20x25x5 Air Bear Filter	0/0/2	4.000	25.99 EA

### Purolator Air Filtration

**Furnace Filter** - The FME series is a medium efficiency, self-supporting, extended surface, panel type air filter. The media area and initial air flow resistance have been carefully balanced to give flow capacity up to 625 FPM without sacrificing dust holding capacity. Double wall construction, expanded metal support grid, adhesive bonds media to the frame. High wet strength beverage board frame, lofted non-woven cotton/polyester media. Diagonal support member bonded to pleats.

### Allergen Reduction Filter

- Electrostatically charged Filtrete™ fibers work like magnets to remove 92% of dust, pollen, and mold. They effectively remove particles as small as 3 microns of smoke and pet dander making them 20 times more effective than ordinary furnace/air conditioner filters. Each provides 3 months of protection under normal conditions. Red label.

## HEATING/HVAC

### Dust And Pollen Reduction Filter

- Electrostatic filter material captures particles and provides cleaner air, home, and duct work. Effective at capturing large airborne allergens like mold, spores, pollen, and large particles like dust and lint. Up to 3 months of filtering performance. Educational partner of the American Lung Association's® Health House® project. Blue label.

### Allergen Reduction Filter

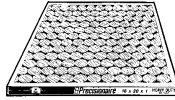

- Filtrete™ ultra allergen reduction filter. Captures large allergens like mold spores and pet dander, microscopic allergens like dust, smoke, smog particles, bacteria, and particles that can carry viruses. Up to 3 months of filtering performance. Meets the American Lung Association's® Health House® indoor air quality guidelines. Purple label.

## Desa International

**Vent-Free Infrared Gas Heater** - Glo-Warm. Operating on the same principle as the sun's heat. The ceramic tiles (plaques) radiate a warm, redish glow which heats objects in the room before heating the air. Each heater is A.G.A. certified for safety and contains an oxygen depletion sensor. The O.D.S. system monitors the oxygen level in the area used, automatically shutting off the gas supply before dangerous levels are reached. No electricity needed, available in natural gas or propane gas models. This unit serves as an affordable supplement to central heating. No outside venting is required as the heater burns 99.9% clean and efficient. Top mounted controls and push button ignition make lighting the heater simple and easy. No matches are required. Models are available with manual controls or automatic thermostat controls. Propane or natural gas. Ivory.

**Kerosene Alternative** - Klean-Strip® Klean-Heat™ odorless heater fuel. The perfect choice to use in place of K1 kerosene in kerosene burning appliances such as heaters, lamps, and stoves. This premium fuel is safer and more convenient to store than kerosene. It contains less sulfur and aromatics so it has *No* kerosene odor before, during, and after burning. The clear formula burns clean to extend the life of your wick and limit smoke, soot, and emissions. Klean-Heat™ is the superior choice for safe and odorless warmth this season. Meets or exceeds all K1 kerosene specifications.

**Remote Control Ready Vent-Free Gas Log** - Comfort Glow®

Biltmore split oak design. 24" full size logs with accents. Dual burner provides dancing yellow flames even at the lowest setting. Variable manual controls allow the user to choose any heat setting between the lowest and highest and any flame height they desire by simply turning a control knob. Low 20,000 BTU and high 39,000 BTU. Heats 1300 sq. ft. Install in any masonry, UL listed, solid fuel burning fireplace or universal vent-free certified firebox. Allows you to operate the logs with the fireplace damper closed. Concrete logs feature deep bark texture and realistic split areas. Can withstand temperatures up to 2000° F. Refer to model No. CGHRCT4 for optional remote control.
