INTRODUCTION: PARTS NUMBERING SYSTEM

Halex has adopted an Item Numbering System that allows the reader to quickly distinguish the material type, product type, package type and size of electrical fittings and accessories in our

product line. To familiarize yourself with the numbering system, please note the example and information provided below:

A= First Numeral = Indicates the **Material Type and Pack Format** of an item. When an item is sold in a **Bulk Format**, the **first digit signifies the Material Type**:

0, 1	=	Zinc
3	=	Brass, Bronze, Copper, Malleable Iron
5	=	Die Cast or Stamped Aluminum
6	=	Steel
7	=	Plastic
8, 9	=	Zinc, with an Insulated Throat or Gasket

B = First three numerals = Indicates the actual Product Type of an item.

When used as the first three digits: **121** = E.M.T. Set-Screw Connector that is made of Zinc Die Cast

C= **Last two numerals** = Indicates the **Size** of an item in inches.

When these digit combinations are used:

03	=	3/8"	12	=	1 1/4"	30	=	3"
05	=	1/2"	15	=	1 1/2"	35	=	3 1/2"
07	=	3/4"	20	=	2"	40	=	4"
10	=	1"	25	=	2 1/2"			

D = Pack Format i.e. **B** = Bulk Packed

ONLINE FEATURES INCLUDE:

- A dedicated area for Electrical Distributors and Sales Reps
- **Product Category**
View product photos and information according to category: EMT, FLEX, NM, Liquid-Tight, Rigid, Service Entrance, Accessories, Ground, Weatherproof and AC Disconnects.
- **Find A Part**
 - Halex Parts – Enter a Halex part number to instantly get the product name, size and available link to additional details, from material, application and carton type, to Master Carton information.
 - Search for Other Manufacturer Parts – Enter a competitive part number to receive details on parts made by nine different manufacturers.
- **Rep Locator**
Point and click selection by state provides immediate access to all our available rep contact information.
- **Links**
Key industry Web site links are organized by industry inspection; professional contractor and electrical distributor association; codes, regulatory and standards; and other categories.
- **Collateral Ordering**
Go to www.halexco.com and click on the Contact tab where you can submit your complete contact information and request catalog.

SET-SCREW CONNECTORS

Zinc Die Cast

- **APPLICATION:** Used to connect EMT conduit to steel outlet box, load center, or other metal enclosure. Indoors only.
- **FEATURES:**
 - 1/2" and 3/4" Concrete tight
 - 1" - 4" Concrete tight when taped
