

48" "The Original" Aluminum Adjust-A-Square® T-Square

Model #: ADS48
UPC: #049448237487

Take errors and guesswork out of your next drywall job with this 48" Adjust-A-Square® from Johnson. The T-square's extruded aluminum blade and head are a robust 1/4" thick, creating a safer straight edge that prevents your utility knife from slipping, while its clear protective anodized finish will keep your tool safe from rust and corrosion. Its precision-machined head and blade lock together for a perfect 90° angle, making it ideal for most drywall work, but its head also adjusts to any angle for the unique angle cuts sometimes needed on the job. This T-square was also designed to be easy to use. It features thermal-bonded black 1/16" graduations that are large and bold for easy reading, and the T-square folds flat for easy transportation to and from your jobsite.
