ITEM# PRS1010

Precision Router Table Top

Designed to reduce vibration and noise wherever possible, this steel reinforced heavy-duty router table provides a solid, secure, and quiet routing solution for any workshop.

- Professionally Edgebanded MDF Top
- Easy-Slide™ Micro-Dot Skin
- Dual Steel Support-Struts
- Heavy-Duty Construction Supports the Largest Routers and Lifts
- Combination Miter/T-Slot
- Phenolic Insert Plate with Dual Reducing Rings
- Unique Bottom-Up Insert Plate Levelers
- Porter-Cable Guide Bushing Compatibility

ITEM# PRS1020

Precision Benchtop Router Table

This Benchtop Router Table is the portable solution to true precision routing. It features a high pressure laminate Micro-Dot MDF surface, a full-size Phenolic insert plate, a rigid steel base which – believe it or not – actually tests quieter than enclosed portable router tables, all which rests on an industrial grade hardened steel foundation for use on the jobsite.

ITEM# PRS2000

Universal Steel Stand

The perfect foundation for all Kreg Table-Top Solutions. Made from heavy-gauge steel. Adjustable from 31" to 36" in height. Includes 4 leveling feet and assembly hardware.

ITEM# KRS1030

True-FLEX™ Featherboard

Single featherboard. Comes with wedge-lock hardware which works in t-slots or miter slots on tablesaws, router tables, band saws and more.

ITEM# PRS3010

True-FLEX™ Featherboard Twin Pack

ITEM# PRS3020
Includes Tandem Use Hardware.

Precision Router Insert Plate

This rugged 3/8" phenolic plate was designed to work with nearly any router, without the use of a "swiss-cheese" style pre-drilled surface. It features an exclusive bottom-up mounting design for a 100% level surface, 2" and 1-13/64" dual reducing rings, and compatibility with standard Porter-Cable guide bushings.

ITEM# PRS3030

Precision Router Insert Plate Levelers

These unique levelers are the easiest way to add an insert plate to your shop-built router table. They eliminate the need for a supporting rabbet and feature a unique bottom-mount design which includes 8 adjustable points of contact, four-corner lock-downs for stability, and locating tabs for easy installation.

ITEM# PRS3040

Precision Micro-Adjuster

Do you need even more precision? When added to the Precision Router Table Fence, this Micro-Adjuster allows you to dial down your measurements much further than you'd probably ever need to!

ITEM# KMS7215

3" Heavy-Duty Locking Casters

Add true mobility to your Universal Steel Stand with our Heavy-Duty Casters. Built to last, these casters feature a dual locking mechanism that won't roll OR pivot once engaged, resulting in an extremely stable work station.

ITEM# PRS3090
