

UTILITY

ALL-PURPOSE HAND PROTECTION

Not all work is created equal and neither was our Utility work glove. This all purpose glove is constructed with a two-piece synthetic leather palm to eliminate material bunching, so you have better control when using hand tools. Breathable TrekDry® forms to the back of your hands to help keep them cool and comfortable on those sauna-like workdays. The Utility glove is secured by a comfortable Thermal Plastic Rubber (TPR) top closure so you have full range of motion during every job.

COMFORT

Form-fitting TrekDry® helps keep hands cool and comfortable.

SECURE FIT

Anatomically designed two-piece palm eliminates material bunching for an exceptional fit.
