# 2. Hazard Identification

#### Classification

Symbol(s) of Product

Signal Word Danger

#### **Possible Hazards**

7% of the mixture consists of ingredient(s) of unknown acute toxicity.

#### **GHS HAZARD STATEMENTS**

| Flammable Liquid, category 2          | H225 | Highly flammable liquid and vapour.      |
|---------------------------------------|------|------------------------------------------|
| STOT, single exposure, category 3, NE | H336 | May cause drowsiness or dizziness.       |
| Skin Corrosion, category 1            | H314 | Causes severe skin burns and eye damage. |

| GHS LABEL PRECAUTIONARY STATE | MENTS                                                                                                  |
|-------------------------------|--------------------------------------------------------------------------------------------------------|
| P210                          | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.         |
| P280                          | Wear protective gloves/protective clothing/eye protection/face protection.                             |
| P303+P361+P353                | IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with<br>water/shower. |
| P370+P378                     | In case of fire: Use alcohol film forming foam, carbon dioxide, dry chemical, dry sand to extinguish.  |
| P403+P235                     | Store in a well-ventilated place. Keep cool.                                                           |
| P501                          | Dispose of contents/container in accordance with local, regional and national regulations.             |
| P271                          | Use only outdoors or in a well-ventilated area.                                                        |
| P304+P340                     | IF INHALED: Remove person to fresh air and keep comfortable for breathing.                             |
| P403+P233                     | Store in a well-ventilated place. Keep container tightly closed.                                       |
| P405                          | Store locked up.                                                                                       |
| P260                          | Do not breathe dust/fume/gas/mist/vapours/spray.                                                       |
| P264                          | Wash hands thoroughly after handling.                                                                  |

| P301+P330+P331<br>P305+P351+P338     | IF SWALLOWED: rinse mouth. Do NOT induce vomiting.<br>IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if<br>present and easy to do. Continue rinsing. |
|--------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| P310                                 | If exposed immediately call a POISON CENTER or doctor/physician.                                                                                                                          |
| P321                                 | For specific treatment see label                                                                                                                                                          |
|                                      |                                                                                                                                                                                           |
| GHS SDS PRECAUTIONARY STATEM         | ENTS                                                                                                                                                                                      |
| GHS SDS PRECAUTIONARY STATEM<br>P240 | ENTS<br>Ground/bond container and receiving equipment.                                                                                                                                    |
|                                      |                                                                                                                                                                                           |
| P240                                 | Ground/bond container and receiving equipment.                                                                                                                                            |

# 3. Composition/Information On Ingredients

#### HAZARDOUS SUBSTANCES

| Chemical Name        | CAS-No.   | <u>Wt.%</u><br>Range | GHS Symbols           | GHS Statements   |
|----------------------|-----------|----------------------|-----------------------|------------------|
| 2-Propanol           | 67-63-0   | 50-75                | GHS02-GHS07           | H225-302-319-336 |
| Methyl Ethyl Ketone  | 78-93-3   | 10-25                | GHS02-GHS07           | H225-319-332-336 |
| Triethoxyoctylsilane | 2943-75-1 | 2.5-10               | Not Available         | Not Available    |

# 4. First-aid Measures

**FIRST AID - EYE CONTACT:** Immediately flush eyes with plenty of water for at least 15 minutes holding eyelids open. Get medical attention. Do NOT allow rubbing of eyes or keeping eyes closed.

**FIRST AID - SKIN CONTACT:** Wash skin with soap and water. Remove contaminated clothing. Get medical attention if irritation develops or persists. Immediately flush skin with plenty of water for at least 15 minutes while removing clothing. Get medical attention immediately. Wash clothing separately before reuse. Destroy contaminated shoes.

**FIRST AID - INHALATION:** Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get immediate medical attention. Do NOT use mouth-to-mouth resuscitation. If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately.

**FIRST AID - INGESTION:** If swallowed, induce vomiting immediately as directed by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention immediately. If swallowed, do not induce vomiting. If victim is conscious and alert, give 2 to 4 cupfuls of water or milk. Call a physician or poison control center immediately. Never give anything by mouth to an unconscious person. Treat symptomatically and supportively. Do not induce vomiting unless advised by a physician. Call nearest Poison Control Center or Physician immediately.

# 5. Fire-fighting Measures

**EXTINGUISHING MEDIA:** Alcohol Film Forming Foam, Carbon Dioxide, Dry Chemical, Dry Sand, Water Fog

UNUSUAL FIRE AND EXPLOSION HAZARDS: No unusual fire or explosion hazards noted. Keep containers tightly closed.

**SPECIAL FIREFIGHTING PROCEDURES:** Containers can rupture and release highly toxic material if exposed to heat. Substance is non-combustible but reacts with many metals to form explosive hydrogen gas. Use water spray to keep fire-exposed containers cool. Containers may explode when heated.

# 6. Accidental Release Measures

STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED: Avoid runoff into sewers and waterways. Provide ventilation and approach spill from upwind using proper personal protective equipment as indicated in Section 8. Carefully neutralize spill with sodium bicarbonate (NaHCO3). Dispose of according to local, state (provincial) and federal regulations. Do not incinerate closed containers. Contain spilled liquid with sand or earth. DO NOT use combustible materials such as sawdust.

# 7. Handling and Storage

**HANDLING:** Wash thoroughly after handling. Wash hands before eating. Remove contaminated clothing and launder before reuse. Use only with adequate ventilation. Follow all MSDS/label precautions even after container is emptied because it may retain product residues. Avoid breathing fumes, vapors, or mist. Avoid contact with eyes, skin and clothing. **STORAGE:** Store in a dry, well ventilated place. Keep container tightly closed when not in use.

# 8. Exposure Controls/Personal Protection

| Chemical Name        | CAS-No.   | Weight %<br>Less Than | ACGIH TLV-<br>TWA | ACGIH TLV-<br>STEL | OSHA PEL-TWA | OSHA PEL-<br>CEILING |
|----------------------|-----------|-----------------------|-------------------|--------------------|--------------|----------------------|
| 2-Propanol           | 67-63-0   | 55.0                  | 200 ppm           | 400 ppm            | 400 ppm      | N.E.                 |
| Methyl Ethyl Ketone  | 78-93-3   | 15.0                  | 200 ppm           | 300 ppm            | 200 ppm      | N.E.                 |
| Triethoxyoctylsilane | 2943-75-1 | 10.0                  | N.E.              | N.E.               | N.E.         | N.E.                 |
| Sulfuric Acid        | 7664-93-9 | 5.0                   | 0.2 mg/m3         | N.E.               | 1 mg/m3      | N.E.                 |
| Hydrochloric Acid    | 7647-01-0 | 1.0                   | N.Ē.              | N.E.               | N.E.         | 5 ppm                |
| Methanol             | 67-56-1   | 1.0                   | 200 ppm           | 250 ppm            | 200 ppm      | N.E.                 |

#### PERSONAL PROTECTION

**ENGINEERING CONTROLS:** Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Provide general dilution of local exhaust ventilation in volume and pattern to keep TLV of hazardous ingredients below acceptable limits. Prevent build-up of vapors by opening all doors and windows to achieve cross-ventilation.

**RESPIRATORY PROTECTION:** A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use.

**SKIN PROTECTION:** Use gloves to prevent prolonged skin contact. Use impervious gloves to prevent skin contact and absorption of this material through the skin. Nitrile or Neoprene gloves may afford adequate skin protection.

EYE PROTECTION: Use safety eyewear designed to protect against splash of liquids.

**OTHER PROTECTIVE EQUIPMENT:** Refer to safety supervisor or industrial hygienist for further guidance regarding types of personal protective equipment and their applications.

**HYGIENIC PRACTICES:** Wash thoroughly with soap and water before eating, drinking or smoking. Remove contaminated clothing immediately and launder before reuse.

# 9. Physical and Chemical Properties

| Appearance:             | Liquid              | Physical State:                   | Liquid     |
|-------------------------|---------------------|-----------------------------------|------------|
| Odor:                   | Alcohol Like        | Odor Threshold:                   | N.E.       |
| Relative Density:       | 0.839               | pH:                               | N.A.       |
| Freeze Point, °C:       | N.D.                | Viscosity:                        | N.D.       |
| Solubility in Water:    | Partially           | Partition Coefficient, n-octanol/ |            |
| Decompostion Temp., °C: | N.D.                | water:                            | N.D.       |
| Boiling Range, °C:      | 80 - 279            | Explosive Limits, vol%:           | 2.0 - 12.0 |
| Flammability:           | Supports Combustion | Flash Point, °C:                  | -5         |
| Evaporation Rate:       | Slower than Ether   | Auto-ignition Temp., °C:          | N.D.       |
| Vapor Density:          | Heavier than Air    | Vapor Pressure:                   | N.D.       |
|                         |                     |                                   |            |

(See "Other information" Section for abbreviation legend)

# 10. Stability and Reactivity

CONDITIONS TO AVOID: Avoid contact with strong acid and strong bases. Avoid contact with metals.

**INCOMPATIBILITY:** Product slowly corrodes copper, aluminum, zinc, and galvanized surfaces. Incompatible with strong oxidizing agents, strong acids and strong alkalies.

HAZARDOUS DECOMPOSITION: Decomposition produces hydrogen chloride, chlorine and hydrogen gases.

HAZARDOUS POLYMERIZATION: Will not occur under normal conditions.

STABILITY: This product is stable under normal storage conditions.

### 11. Toxicological information

EFFECTS OF OVEREXPOSURE - EYE CONTACT: Substance causes severe eye irritation. Injury may be permanent.

EFFECTS OF OVEREXPOSURE - SKIN CONTACT: Severely irritating; may cause permanent skin damage.

**EFFECTS OF OVEREXPOSURE - INHALATION:** Harmful if inhaled. High gas, vapor, mist or dust concentrations may be harmful if inhaled. Avoid breathing fumes, spray, vapors, or mist. High vapor concentrations are irritating to the eyes, nose, throat and lungs.

**EFFECTS OF OVEREXPOSURE - INGESTION:** Poison, may be fatal or cause blindness if swallowed. Corrosive and may cause severe and permanent damage to mouth, throat and stomach. Substance may be harmful if swallowed.

EFFECTS OF OVEREXPOSURE - CHRONIC HAZARDS: Overexposure to methyl ethyl ketone in laboratory animals has been associated with liver abnormalities, kidney and lung damage. Fetotoxic/embryotoxic effects from inhalation have been seen in rats exposed to >1000ppm during gestation. Repeated exposure to low concentrations of HCl vapor or mist may cause bleeding of nose and gums.

PRIMARY ROUTE(S) OF ENTRY: Eye Contact, Ingestion, Inhalation, Skin Absorption, Skin Contact

#### ACUTE TOXICITY VALUES

#### The acute effects of this product have not been tested. Data on individual components are tabulated below:

| CAS-No.   | <u>Chemical Name</u> | <u>Oral LD50</u>    | Dermal LD50        | Vapor LC50    |
|-----------|----------------------|---------------------|--------------------|---------------|
| 67-63-0   | 2-Propanol           | 1870 mg/kg Rat      | 4059 mg/kg Rabbit  | 72.6 mg/L Rat |
| 78-93-3   | Methyl Ethyl Ketone  | 2483 mg/kg Rat      | 5000 mg/kg Rabbit  | N.I.          |
| 7664-93-9 | Sulfuric Acid        | 2140 mg/kg Rat      | N.I.               | .5 mg/L Rat   |
| 7647-01-0 | Hydrochloric Acid    | 238 - 277 mg/kg Rat | >5010 mg/kg Rabbit | Ň.I.          |
| 67-56-1   | Methanol             | 6200 mg/kg Rat      | N.I.               | N.I.          |

#### N.I. - No Information

# 12. Ecological Information

ECOLOGICAL INFORMATION: Product is a mixture of listed components.

# 13. Disposal Information

**DISPOSAL INFORMATION:** Dispose of material in accordance to local, state, and federal regulations and ordinances. Do not allow to enter waterways, wastewater, soil, storm drains or sewer systems.

### 14. Transport Information

#### 15. Regulatory Information

#### **U.S. Federal Regulations:**

#### **CERCLA - SARA Hazard Category**

This product has been reviewed according to the EPA 'Hazard Categories' promulgated under Sections 311 and 312 of the Superfund Amendment and Reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories:

Fire Hazard, Acute Health Hazard, Chronic Health Hazard

#### Sara Section 313:

This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and Reauthorization Act of 1986 and 40 CFR part 372:

| Chemical Name       | CAS-No.   |
|---------------------|-----------|
| Methyl Ethyl Ketone | 78-93-3   |
| Sulfuric Acid       | 7664-93-9 |
| Hydrochloric Acid   | 7647-01-0 |
| Methanol            | 67-56-1   |

#### **Toxic Substances Control Act:**

This product contains the following chemical substances subject to the reporting requirements of TSCA 12(b) if exported from the United States:

No TSCA 12(b) components exist in this product.
