LESS • LIGHTWEIGHT

WHY STILETTO TITANIUM HAMMERS?

POWERFUL

Titanium has a more efficient transfer of energy in comparison to the high carbon Steel hammers. Get more done with less effort!

PAINLESS

Titanium provides 10 times greater damping of damaging recoil shock vibration than Steel. Less recoil means less pain.

LIGHTWEIGHT

Titanium weighs 45% less than a Steel hammer of similar size. Less weight means less fatigue at the end of a long workday.

PATENTED STILETTO TECHNOLOGY

Stiletto Titanium Tools are designed to reduce the harmful effects that nailing and prying can have on your body. Stiletto has combined the latest materials, patented technology & design innovations to create new tools that enable you to work *safer, faster and easier*.

*Patented Repl. Steel Face
& 180° Nail Puller on
TiBone™ models only*

*Patented Staple Puller
on Ti and Stainless
15" & 11" Flatbars*

*Patented Dimpler™
feature on ClawBar™
model only*
