QUICK START GUIDE

You're just three simple steps away from a beautiful Scott's® lawn!

1 Set & Fill Spreader
Preparar y llenar el esparcidor

Scott's® Broadcast/Rotary Spreaders **3½**
Scott's® Drop Spreaders **5½**

Scott's® products are designed to work with Scott's spreaders. When using spreaders other than Scott's, calibrate the spreader settings based on the manufacturer's recommendations.

Español: Para utilizar los esparcidores Scott's®.
Español: Para utilizar los esparcidores Scott's®.
Los productos Scott's® están diseñados para funcionar con los esparcidores Scott's®. Al usar esparcidores que no sean Scott's, calibre los medios del esparcidor en base a las recomendaciones del fabricante.

2 Apply
Aplicar

Apply to dry lawn. Water in thoroughly (~ 1 inch) to activate. Apply 2.67 lbs of product per 1,000 sq. ft. The maximum number of applications is one per year. In New York State, do not apply within 100 feet of a water body (lake, pond, river, stream, wetland, or drainage ditch).

Aplicar sobre el césped seco. Riegue abundantemente (2.5 cm aprox) para activarlo. Aplique 1.3 kilogramos del producto por cada 93 metros cuadrados. El número máximo de aplicaciones es de una por año. En el estado de Nueva York, no aplique a menos de 30 metros de un cuerpo de agua (lagos, estanques, ríos, riachuelos, pantanos o diques de drenaje).

3 Clean-up
Limpiar

Sweeping product from hard surfaces onto lawn keeps product on the grass.

Barer el producto desde las superficies duras hacia el jardín mantiene el producto sobre el césped.

You're Done! What's Next?

- People or pets may re-enter lawn once grass has dried.
- Your lawn will be protected from grubs.

¡Listo! ¿Qué sigue? Las personas o las mascotas pueden ingresar al césped una vez que éste se haya secado. Su césped estará protegido contra los gorgojos.

Other Things You Should Know

- Apply spring to early summer.
- Do not apply to waterlogged areas.

Otras cosas que debe saber

- Aplicar desde la primavera hasta principios del verano.
- No lo aplique en áreas anegadas.

TURF DAMAGING PESTS

Grubs and other listed insects can cause extensive damage to lawns by feeding on grass and its roots. Infested turf turns brown and is easily pulled up by hand. GrubEx® prevents turf damage by killing grubs when they are young before they can cause damage to your turf.

Annual use can help control Japanese Beetle infestations!

White Grub

Caterpillar (Armyworm)

Chinchbug

Larvae of: Japanese Beetle

Larvae of: Crane fly

Larvae of: Billbug

Kills/Controls: White grubs (including larvae of): Japanese beetles, Asiatic garden beetles, Black turfgrass ateniuss, Aphodius spp., European chafers, Green June beetles, May/June beetles, Northern masked chafers, Oriental beetles, Southern masked chafers, Caterpillars (including Armyworms, Cutworms, Sod webworms), Billbug grubs, Crane fly larvae (including European Crane Flies). Suppresses Chinchbugs.

Apply Fall (Oct-Dec) to control Crane fly larvae (including European Crane fly).

STOP THE DESTRUCTIVE CYCLE!

Scott's® GrubEx®, kills grubs as they develop, BEFORE they cause damage to your lawn! Apply GrubEx®, spring to early summer.

Grubs come out of winter hibernation and start to eat your lawn's roots. By late spring, grubs enter the pupa stage to transform into beetles.

Adult beetles surface to feed on your garden and lay eggs back in your lawn. Eggs hatch into new grubs, which will begin to feed on your lawn's roots.

Between the summer stress and the feeding grubs, your lawn can be severely damaged. After feeding in the fall, grubs will hibernate during the winter and resume the destructive cycle in the spring.

Don't forget to feed your lawn – a strong root system will also help your lawn defend against grubs!

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

When used as directed this product does not present a hazard to humans or domestic animals. Wash hands thoroughly after use. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic invertebrates,ysters and shrimp. Do not apply directly to water. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk or street back onto the treated area will help to prevent run off to water bodies or drainage systems.

Ground Water Advisory

This chemical has properties and characteristics associated with chemicals detected in ground water. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in ground water contamination.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store in a clean, dry place. Reseal opened bag by folding top down and securing.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: If empty: Non-refillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

AVISOS DE PRECAUCION

PELIGRO PARA HUMANOS Y ANIMALES DOMESTICOS

Cuando el producto se aplica según se indica, no representa un peligro para los seres humanos y los animales domésticos. Después de usarlo, lávelase bien las manos. Deseche y lavar la ropa contaminada antes de volver a usarla.

RIESGOS AMBIENTALES

Este producto es tóxico para los invertebrados acuáticos, las ostras y los camarones. No gualque directamente al agua. Para proteger el medio ambiente, no permita que el pesticida ingrese o discurre a desagües de tormenta, zanjias de drenaje, canalones o aguas superficiales. La aplicación de este producto en un clima tranquilo, cuando no haya un pronóstico de lluvia para las próximas 24 horas, asegurará que el viento o la lluvia no soplen o arrastren el pesticida fuera de la zona de tratamiento. Para evitar el escurrimiento a masas de agua o sistemas de drenaje, barra hacia el área tratada el producto que caiga sobre el camino de entrada, la acera o la calle.

Nota sobre las aguas subterráneas

Este producto químico tiene propiedades y características asociadas con las sustancias químicas detectadas en aguas subterráneas. La utilización de este producto químico en áreas donde los suelos son permeables, en particular donde el manto freático es superficial, puede derivar en la contaminación de las aguas subterráneas.

ALMACENAMIENTO Y ELIMINACION

ALMACENAMIENTO DEL PESTICIDA: Almacene en un lugar seco y limpio. Para sellar nuevamente la bolsa abierta, plegue el borde y asegúrelo.

ELIMINACION DEL PESTICIDA Y MANEJO DEL ENVASE: Si está vacío: Envase no rellenable. No vuelva a utilizar o llenar este envase. Coloque en la basura o reciclado, si corresponde. Si el envase está parcialmente lleno: Llame a su agencia de desechos sólidos local para obtener instrucciones sobre cómo eliminar el producto. Nunca tire el producto restante por un drenaje interno ni externo.

*Scott's® Guarantee

If for any reason you, the consumer, are not satisfied after using this product, you are entitled to get your money back. Simply send us evidence of purchase and we will mail you a refund check promptly.

Si por alguna razón usted, el consumidor, no está completamente satisfecho con este producto, tiene derecho a que le devolvamos su dinero. Sólo deberá enviarnos el comprobante de compra y le enviaremos un cheque de reembolso por correo inmediatamente.

NOTICE: To the extent consistent with applicable law, buyer assumes all risks of use, storage, or handling of this product not in accordance with directions. **AVISO:** En conformidad con la ley aplicable, el comprador asume todos los riesgos de uso, almacenamiento o manejo de este producto si no se siguen las instrucciones correspondientes.
