# RETAIL LEADERSHIP

Sun Gro offers several IGC-oriented brands, which are held to the high industry standards of its professional lines. These include well known industry names like **Black Gold**®, **Fafard**®, **Sunshine**® and **Sunshine**® Mix #4.

Each brand has a distinct set of characteristics that sets it apart from the rest; among them you will find a wide array of potting, specialty mixes and garden amendments.

Many are OMRI Listed® products approved for organic gardening.

Sun Gro's Canadian production facilities are Veriflora Certified for sustainability, and as a founding member of the Canadian Sphagnum Peat Moss Association, Sun Gro practices sustainable peatland management.

# growing

annuals, perennials, vegetables,  
herbs, cultivation or hemp?

**RESiLENCE® - a beneficial plant  
substance that may make  
a plant stronger\*!**

Plants grown with our RESiLENCE®  
mixes may result in\*:

- Earlier flowering
- Better root growth
- Longer time before wilting
- Increased stem diameter
- Quicker recovery from infrequent watering

*It's already  
in the mix™*

\* Results will vary by the kind of plant you grow and how you grow it.

# WHAT'S IN THE MIX?

We all know the importance of using superior professional growing mixes to get the best results. It's critical in the plants you sell – and it's critical that you help your customers choose plants grown in superior mixes so they can grow vigorous gardens. And then become repeat customers.

Sun Gro professional and retail products are made with premium ingredients and meet the highest quality standards.

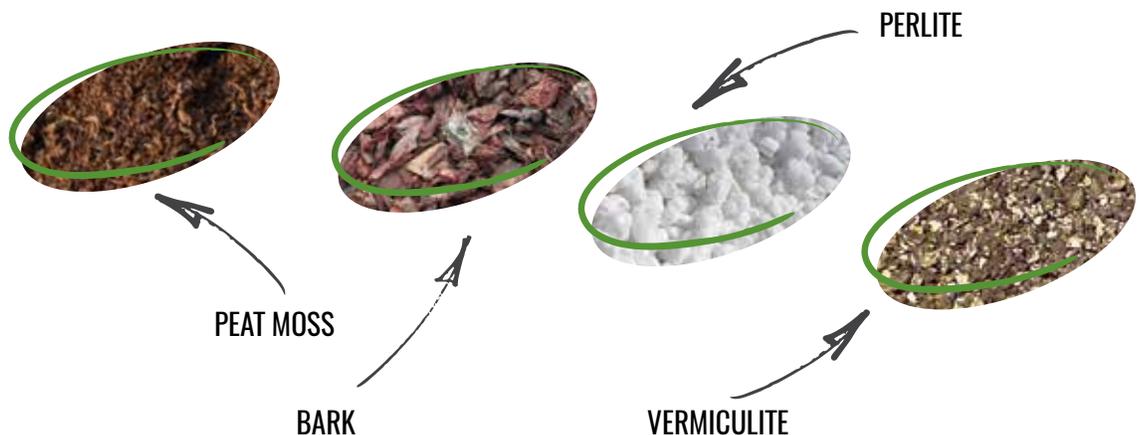

The major role of a growing mix is to support plants, while holding water, air, and nutrients to promote vigorous growth. The following is a brief overview of each of the quality components Sun Gro may use in our mix formulations.

## 'ORGANIC' PRODUCTS

Organic products are defined by Sun Gro as ingredients that are carbon based, were once alive and are without the addition of synthetic chemicals. Some examples are peat moss, bark, organic fertilizers and organic wetting agents.

## 'NATURAL' PRODUCTS

Other components such as perlite, vermiculite, gypsum, limestone and RESILIENCE® silicon are defined as 'natural' which means they are not carbon based but they are obtained from natural deposits and processed without the use of synthetic chemicals - these materials are mined, ground up and screened, and expanded in the case of vermiculite and perlite.

# gro facts

#1

## CANADIAN SPHAGNUM PEAT MOSS

**WHAT IS IT?** Sphagnum peat moss for growing media comes from the non-living, fibrous sphagnum moss that has partially decomposed in a bog. It's light and spongy and crumbles into small clumps.

**WHAT DOES IT DO?** Peat moss has a remarkable ability to efficiently hold water and nutrients that may otherwise leach out of the soil. It's nature's best all-purpose soil conditioner, which is why Sun Gro adds it to all key professional and retail mixes.

#2

## BARK

**WHAT IS IT?** Aged or composted bark comes from the forest product industry. The bark is shredded or chipped and then aged or composted to make it a higher value mix component.

**WHAT DOES IT DO?** When added to growing mix, aged or composted bark increases air capacity. Its unique particle size and shape allows air to circulate through the soil, improving oxygen availability to plant roots.

#3

## PERLITE

**WHAT IS IT?** Perlite is derived from crushed volcanic rock, which is expanded (popped) in a furnace. Perlite particles are lightweight, roundish and white.

**WHAT DOES IT DO?** Perlite is a natural additive for growing media used to aerate mixes and aid in water retention.

#4

## COCONUT COIR

**WHAT IS IT?** Coconut coir is a byproduct of the coconut fiber industry. Coir is the dust that is produced during the processing of coconut fiber.

**WHAT DOES IT DO?** Coconut coir adds bulk and texture to potting mixes and can hold up to nine times its weight in water.

#5

## COMPOST

**WHAT IS IT?** Compost is decomposed organic material.

**WHAT DOES IT DO?** Compost is added to mixes to provide natural, stabilized organic matter. It also has excellent water-holding ability.

#6

## RESiLiENCE®

**WHAT IS IT?** RESiLiENCE is Sun Gro's brand name for growing mixes enriched with silicon. Silicon is an abundant element naturally found in soils.

**WHAT DOES IT DO?** Silicon (Si) is a beneficial plant substance for growing medium or soil that can enhance plant quality. RESiLiENCE® plant growth effects may include thicker/stronger stems, more compact growth, increased root mass and improve resistance to wilting.

#7

## EARTHWORM CASTINGS

**WHAT IS IT?** Earthworm castings (vermicastings) are the organic waste products from earthworms. Earthworms consume organic matter, and their castings are collected for soil enrichment.

**WHAT DOES IT DO?** Castings from earthworms are nutrient rich, biologically active, and used to enrich mixes and garden soils for improved plant performance.

# BLACK GOLD®

## Black Gold® Potting Mixes, Specialty Mixes & Amendments

Our best-selling brand just gets stronger. Black Gold potting mix and amendment quality is assured with its professional-grade ingredients. These products are positioned as high end – the best in the classification of good, better, and best.

And now most Black Gold products are **OMRI Listed®** and **Natural & Organic\*** in support of edible gardening and lifestyle preferences.

Many Black Gold products contain nutrient rich and biologically active earthworm castings and RESILIENCE® - a beneficial plant substance.

Black Gold leads the industry with one of the strongest, most integrated consumer social media and support programs.

\* exception: Black Gold All Purpose and Black Gold Moisture Supreme Container Mix.

## POTTING MIXES AND AMENDMENTS

### Black Gold® Natural & Organic Earthworm Castings Blend 0.8-0.0-0.0

- This enriching soil amendment is great for use as a top-dressing or soil conditioner
- Provides a rich natural fertilizer
- Naturally aerates the soil to help retain high moisture levels
- OMRI Listed®

**Available Sizes:**  
8 QT (240/pallet)

**Ingredients:** Earthworm castings, Canadian Sphagnum peat moss

### Black Gold® Natural & Organic Garden Compost Blend 0.06-0.03-0.03

- All natural
- Gardeners use this blend as a raised bed amendment and garden mulch
- Perfect for enriching an existing bed, creating new flower or vegetable gardens, or establishing a new lawn
- Improves soil moisture retention, aeration and drainage
- OMRI Listed®

**Available Sizes:**  
1.0 CF (70/pallet)

**Ingredients:** Compost, bark and Canadian Sphagnum peat moss

### Black Gold® Natural & Organic Garden Soil 0.07-0.03-0.03

- Regionally formulated by professional horticulturists to best suit your local garden soils
- Improves soil structure by adding organic matter
- Organic nitrogen

**Available Sizes:**  
1.0 CF (70/pallet)

**Ingredients:** Bark, compost, and Canadian Sphagnum peat moss

### Black Gold® Natural & Organic African Violet Potting Mix 0.18-0.02-0.02

- Picky African violets thrive in this blend which maintains a good balance between porosity and organic matter for blooming plants with beautiful foliage
- It is also suited to Gloxinia, Sinningia, Streptocarpus and sensitive container plants
- Contains RESILIENCE®

**Available Sizes:**  
8 QT (240/pallet)

**Ingredients:** Canadian Sphagnum peat moss, perlite, and one or more of the following: pumice, cinders, compost, processed softwood bark, processed rice hulls and earthworm castings

### Black Gold® Natural & Organic Succulent & Cactus Potting Mix 0.07-0.0-0.0

- An ideal rapid draining growing mix for succulent plants
- Balanced blend of bark, compost, earthworm castings and perlite or pumice or cinders
- Encourages growth while ensuring ample aeration and drainage that most cacti, bromeliads and succulents require to thrive
- For planting indoor or outdoor succulent containers, or amending rock gardens

**Available Sizes:**  
8 QT (240/pallet), 1.0 CF (63/pallet)

**Ingredients:** Perlite, pumice or cinders, bark, Canadian Sphagnum peat moss and earthworm castings

### Black Gold® Natural & Organic Orchid Potting Mix

- Recommended for terrestrial to semi-terrestrial orchids
- Premium, high performing mix ideal for growing epiphytic orchids, such as Phalaenopsis, Dendrobium, and Cattleya orchids, among others
- Provides the quick drainage and plentiful air pockets that orchid roots require for good growth
- Helps anchor plants in pots without compacting roots
- All natural

**Available Sizes:**  
8 QT (240/pallet)

**Ingredients:** Bark, perlite and organic wetting agent

## AMENDMENTS

### Black Gold® Natural & Organic Perlite

- All natural
- Perlite is a lightweight, expanded volcanic rock
- Improves drainage and aeration of any growing mix
- Its high porosity makes it suitable for rooting cuttings
- OMRI Listed®

**Available Sizes:**  
8 QT (240/pallet)

**Ingredients:** Perlite

### Black Gold® Natural & Organic Vermiculite

- All natural
- High CEC (Cation Exchange Capacity) for better fertilizer retention and release when used in the potting mix
- When used alone, it is perfect for rooting cuttings
- Absorbent and lightweight
- OMRI Listed®

**Available Sizes:**  
8 QT (240/pallet)

**Ingredients:** Vermiculite

### Black Gold® Natural & Organic Canadian Sphagnum Peat Moss Plus

- 100% Canadian Sphagnum peat moss
- Added organic wetting agent
- Suited to acid-loving plants
- May slightly lower the pH of more alkaline soils
- Great as a soil amendment or make-your-own base mix
- OMRI Listed®

**Available Sizes:**  
8 QT (240/pallet)

**Ingredients:** Canadian Sphagnum peat moss, organic wetting agent

### Black Gold® Natural & Organic Canadian Sphagnum Peat Moss

- 100% Canadian Sphagnum peat moss
- Suited to acid-loving plants
- May slightly lower the pH of more alkaline soils
- Improves soil water retention and aeration in garden soil
- OMRI Listed®

**Available Sizes:**  
1.0 CF (100/pallet), 2.2 CF (50/pallet)  
3.0 CF (35/pallet), 3.8 CF (30/pallet)

**Ingredients:** Canadian Sphagnum peat moss

### Black Gold® Natural & Organic Soil Conditioner 0.02-0.01-0.01

- Helps build soil structure while supplying needed nutrients and mycorrhizae for top performance
- Black Gold® Soil Conditioner is one of the most powerful garden soil amendments on the market
- Boosted with Sun Gro's proprietary seven mycorrhizae species
- Expands to 3 cubic feet

**Available Sizes:**  
2.2 CF (30/pallet)\*\*

**Ingredients:** Bark, compost, Canadian Sphagnum peat moss, earthworm castings, organic fertilizer and mycorrhizae

\*\*Available in Western States only

80 CF tote size available

**Ingredients:** Canadian Sphagnum peat moss, perlite, coir, dolomite lime, proprietary blend of endomycorrhizae, organic wetting agent and RESILIENCE<sup>®</sup>

### Sunshine<sup>®</sup> Mix #4

- High air capacity and fast drainage
- Ideal for water and salt sensitive crops or where frequent leaching is required
- Inert mix is a perfect make-your-own mix base
- Ready to Gro
- Contains RESILIENCE<sup>®</sup>, our silicon-enriched additive – may enhance plant growth, flowering and improve resistance to wilting

**Available Sizes:** 3.8 CF compressed (30/pallet)(expands up to 7.2 CF) 80 CF tote size available

**Ingredients:** Canadian Sphagnum peat moss, coarse perlite, dolomite lime, long-lasting wetting agent and RESILIENCE<sup>®</sup>

### Sunshine<sup>®</sup> Mix #4 with Mycorrhizae

- For indoor growing
- Contains horticultural grade perlite for greater porosity
- Our classic #4 boosted with Sun Gro's proprietary seven mycorrhizae species
- Contains RESILIENCE<sup>®</sup>, our silicon-enriched additive – may enhance plant growth, flowering and improve resistance to wilting

**Available Sizes:** 3.0 CF compressed bales (35/pallet) (expands up to 6 CF)

**Ingredients:** Canadian Sphagnum peat moss, perlite, dolomite lime, proprietary blend of endomycorrhizae, wetting agent and RESILIENCE<sup>®</sup>

## Sunshine® Potting Mixes and Peat Moss

Sell the most popular professional-grower brand on the market, Sunshine gardeners choose Sunshine because this prestigious brand offers a wide variety of professional-grade mixes and Canadian Sphagnum peat moss products for overall gardening success.

The Sunshine label includes many **OMRI Listed®** products for organic gardening as well as all-purpose blends for everyday gardening. Plants love Sunshine, and so will you!

## POTTING MIXES

### Sunshine<sup>®</sup> All-Purpose Potting Mix

- Formulated for indoor use
- Effectively retains nutrients and water
- Comprised of Canadian Sphagnum peat moss, perlite and starter fertilizer
- Certified as a Premium Potting Soil by the Mulch and Soil Council<sup>®</sup>
- Contains RESILIENCE<sup>®</sup>

**Available Sizes:**

1.5 CF (75/pallet), 2.5 CF (45/pallet)

**Ingredients:** Canadian Sphagnum peat moss, perlite, dolomite lime and wetting agent

### Sunshine<sup>®</sup> Container Potting Mix 0.1-0.1-0.1

- Contains water-holding gel
- Water is retained and slowly disseminated resulting in less watering needed
- Formulated for summer containers, hanging baskets and window boxes
- Contains a controlled release fertilizer
- Feeds up to 6 months
- Contains RESILIENCE<sup>®</sup>

**Available Sizes:**

1.5 CF (75/pallet), 2.5 CF (45/pallet)

**Ingredients:** Canadian Sphagnum peat moss, perlite, dolomite lime, controlled release fertilizer, water-holding polymer and wetting agent

### Sunshine<sup>®</sup> Professional Growing Mix 0.1-0.1-0.1

- All-purpose blend formulated for indoor and outdoor gardening
- Plants will thrive in this ready-to-use formulation made with the best Canadian Sphagnum peat moss
- Contains a controlled release fertilizer
- Feeds up to 6 months
- Certified as a Premium Potting Soil by the Mulch and Soil Council<sup>®</sup>
- Contains RESILIENCE<sup>®</sup>

**Available Sizes:**

1.5 CF (75/pallet), 2.5 CF (45/pallet)

**Ingredients:** Canadian Sphagnum peat moss, perlite, dolomite lime, controlled release fertilizer and wetting agent

### Sunshine<sup>®</sup> Natural & Organic Planting Mix

- Same formulation used by commercial greenhouse growers throughout North America
- All-purpose blend formulated for indoor and outdoor gardening
- Contains RESILIENCE<sup>®</sup>
- OMRI Listed<sup>®</sup>

**Available Sizes:**

1.5 CF (75/pallet), 2.5 CF (45/pallet)

**Ingredients:** Canadian Sphagnum peat moss, perlite, dolomite lime and organic wetting agent

See page 25 for Mulch & Soil Council<sup>®</sup> Certified Product Information

See page 5 for RESILIENCE<sup>®</sup> product information

## PEAT MOSS AND AMENDMENTS

### Sunshine® Canadian Sphagnum Peat Moss

- 100% Canadian Sphagnum peat moss
- Suited to acid-loving plants
- Can slightly lower the pH of more alkaline soils
- Compressed bales for convenient storage and easy handling
- Improves soil water retention and aeration
- OMRI Listed®

**Available Sizes:**

- 1.0 CF (100/pallet) (compressed bales)
- 2.2 CF (50/pallet) (compressed bales)
- 3.0 CF (35/pallet) (compressed bales)
- 3.8 CF (30/pallet) (compressed bales)

**Ingredients:** Canadian Sphagnum peat moss

### Sunshine® Coarse Perlite Premium Grade

- All natural
- Professional grade perlite
- Suitable for rooting cuttings or adding aeration and drainage to mixes
- OMRI Listed®

**Available Sizes:**  
2.0 CF (60/pallet)

**Ingredients:** Perlite

Available in Eastern States only

### Sunshine® Vermiculite Premium Grade

- All natural
- Professional grade
- High CEC (Cation Exchange Capacity) for better fertilizer retention and release
- Improves drainage and aeration
- Used as a 'seed topper' or cutting medium by professional growers
- OMRI Listed®

**Available Sizes:**  
2.0 CF (60/pallet)

**Ingredients:** Vermiculite

Available in Eastern States only
